March Common Paper 2014 Memo:

Australia's Human Rights Scrutiny Regime Adam Fletcher, 2018-09-17 In 2010 the Australian Government decided that it would not propose a Human Rights Act despite the relevant recommendation of the 2008 09 National Human Rights Consultation. Instead it introduced a Human Rights Framework comprising several measures to enhance human rights protection including the Human Rights Parliamentary Scrutiny Act 2011. The scrutiny regime under that Act was designed to ensure rights would be given due consideration before Commonwealth legislation was passed. The Act created a unique bipartite dialogue system involving a formal interchange on rights compatibility between the executive and Parliament while excluding the courts. This set the Commonwealth apart from jurisdictions such as the ACT, Victoria, New Zealand and the UK which have statutory rights instruments administered by their courts. The book presents a detailed study of all aspects of the scrutiny regime and compares the regime with its closest counterparts overseas. In assessing the regime's impact it argues that a system in which the executive and Parliament are responsible both for protecting rights and for remedying rights breaches is neither more legitimate nor more effective than one involving all three branches of government. Accordingly it calls for strengthening reforms.

Forging a Special Operations Force Dominic Caraccilo, 2015-08-19 *Forging a Special Operations Force* The U.S. Army Rangers details the origins and development, combat philosophy and key engagements of America's elite fighting force. Structured topically the book gives a chronological review of the history of the Ranger from the 17th century to the present day with special attention paid to the establishment of the 1st Ranger Battalion in the post Vietnam era, the origins of the elite fighting force that exists today. Authored by a lifetime soldier who served in combat with the 75th Ranger Regiment, this book is replete with information garnered from dozens of interviews with the individuals who created the initial Ranger Force. By integrating the words and firsthand accounts of these founding fathers, the work offers insights unavailable elsewhere. Additionally, the author delves into the unique psyche of the soldiers who volunteer for and are accepted into the ranks of the Rangers.

Assisting International Justice Tom Buitelaar,2023-10-04 Although the International Criminal Court ICC as the only permanent international court that addresses crimes against humanity genocide and war crimes has important potential to end impunity and find justice for victims of atrocities it is dependent on others for almost all aspects of its functioning The Court has frequently relied on the peacekeeping operations that the UN deploys in the field and over the past two decades UN peacekeepers have provided logistical assistance and security to Court investigators shared large amounts of information and have even been involved in the arrest of Court suspects But their track record has been inconsistent they have sometimes refused to take action against people accused of war crimes and have found it difficult to balance their impartiality with court prosecutions Despite the empirical importance of this phenomenon we know precious little about the circumstances under which it occurs In *Assisting International Justice* Buitelaar reveals

the conditions under which UN peacekeepers address impunity in their mission areas He presents an original single country case study of assistance provided by the UN mission in the Democratic Republic of the Congo and a plausibility probe of other peace operations in ICC situation countries Relying on new empirical material including over 130 interviews of key decision makers and comprehensive archival research this scholarly volume explores how the UN navigates the terrain of conflict mediation and punitive accountability and demonstrates the collaborative but contingent relationship between the UN and the ICC
