The Full Employment Horizon in 20th-Century America Michael Dennis, 2021-02-11 Through moments of social protest policy debate and popular mobilization this book follows the campaign for economic democracy and the fight for full employment in the United States Starting in the 1930s Dennis explores its intellectual and philosophical underpinnings the class struggle that determined the fate of legislation and the role of left wing civil rights activists in its revival Demonstrating how the campaign for full employment intersected with movements for women s liberation and civil rights it explores how social groups and oppressed minorities interpreted and appropriated the promise of full employment For many full employment provided an indispensable path to racial and gender emancipation In this book Dennis uncovers the class dimensions and the resistance to full employment in the US He demonstrates how the recurring debates over full employment consistently exposed the contradictions inherent in a capitalist society and challenged the assertion that an allegedly free enterprise system automatically generated employment for all

The Unmaking of Arab Socialism Ali Kadri, 2016-10-01 Conditions of malnutrition conflict or a combination of both characterize many Arab countries but this was not always so As in much of the developing world the immediate post independence period represented an age of hope and relative prosperity But imperialism did not sleep while these countries developed and it soon intervened to destroy these post independence achievements The two principal defeats and losses of territory to Israel in 1967 and 1973 as well as the others that followed left in their wake more than the destruction of assets and the loss of human lives the Arab World lost its ideology of resistance The Unmaking of Arab Socialism is an attempt to understand the reasons for Arab world s developmental descent from the pinnacle of Arab socialism to its present desolate conditions through an examination of the post colonial histories of Egypt Syria and Iraq

The State of Black Progress Star Parker, 2024-03-19 Black Americans have arguably arrived at the height of their cultural prominence In politics entertainment academia and nearly every sphere of influence black issues dominate the national discussion Yet many black Americans are suffering more than ever from the blight of poverty physical and mental health struggles lack of opportunity and failing schools How do these signs of success on the surface coexist with

social stagnation on the ground in the black community This edited volume sponsored by the Center for Urban Renewal and Education and featuring contributions from W B Allen Judge Janice Rogers Brown ret Ian Rowe Sally Pipes Stephen Moore and others addresses this question in light of American values and the history of constitutional jurisprudence In the 1860s black America was promised emancipation but continued to experience subjugation In the 1960s black America was promised equality but was frequently exploited Racial discrimination played a role but in the intervening decades misguided progressive policies and the normalization of victimhood rhetoric has proven even more disastrous By failing to live up to American ideals our nation denied many black Americans their chance at the American Dream The scholars and luminaries who contributed to this volume believe that what has been lost can be recovered If our nation recognizes the history of our current predicament embraces the founding principles that made America an economic powerhouse and commits to an agenda of empowering fiscal educational and faith and family affirming policies then black Americans can overcome the obstacles that most hamper progress in their communities
