*Analyzing Websites* Luc Massou, Patrick Mpondo-Dicka, Nathalie Pinède, 2024-01-31 From a cluster of interconnected HTML pages to online service platforms websites are constantly changing in form and function These transformations have led on the one hand to human and social sciences renewing or inventing analytical methodologies and on the other hand to a reconsideration of the practices of non specialists and digital professionals The Web factory is equally included on the agenda of communication training according to an alternative approach that is complementary to the one that has been implemented for computer scientists From these two perspectives and drawing upon several case studies *Analyzing Websites* presents epistemological and methodological contributions from researchers in Information and Communication Sciences exploring websites as sociotechnical semi discursive and communicational devices This study covers website design as well as their integration into the digital strategies of organizations in the public associative and private sectors

**Analyses des sites web** Luc Massou, Patrick Mpondo-Dicka, Nathalie Pinède, 2022-09-23 D'un ensemble de pages HTML interconnectées aux plateformes de services en ligne les sites web n'ont cessé de changer de formes et de fonctions Ces mutations ont amené d'une part les sciences humaines et sociales renouveler ou inventer des méthodologies d'analyse et d'autre part repenser les pratiques des non spécialistes et des professionnels du numérique La fabrique du Web s'est galement inscrite à l'agenda des formations en communication selon une approche différente et complémentaire de celle mise en œuvre pour les informaticiens Sous l'angle de ces deux perspectives et en prenant appui sur plusieurs études de cas *Analyses des sites web* présente des contributions à la fois épistémologiques et méthodologiques de chercheurs en sciences de l'information et de la communication afin d'analyser les sites

web comme dispositifs sociotechniques s'inscrivent dans des discours et communicationnels. Cette étude va de leur conception leur intégration dans les stratégies numériques des organisations du secteur public associatif ou privé. *Empowering Users through Design* David Bihanic, 2015-01-12. At the crossroads of various disciplines this collective work examines the possibility of a new end user engagement in ongoing digital technological products and services development. It provides an overview of recent research specifically focused on the user's democratic participation and empowerment. It also enables readers to better identify the main opportunities of participatory design, a concept which encourages the blurring of the role between user and designer. This allows people to escape their status as end user and to elevate themselves to the level of creator. This book explores new avenues for rethinking the processes and practices of corporate innovation in order to cope with current socio-economic and technological changes. In so doing it aims to help companies renew industrial models that allow them to design and produce new ranges of technological products and services by giving the user an active role in the development process far beyond the basic role of consumer. Intended for designers, design researchers and scientists interested in innovation and technology management, this book also provides a valuable resource for professionals involved in technology-based innovation processes. **La Recherche**, 2002. *Traité pratique d'édition* Philippe Schuwer, 2002. Analyse et commente les responsabilités, les rôles et fonctions des éditeurs, auteurs, collaborateurs, traducteurs, artistes. Aborde également les aspects juridiques, techniques et économiques de l'édition : droits d'auteur, contrats, types, cessions des droits, stratégie éditoriale. **Livres de France**, 2003. *Economie de l'information spécialisée* Daniel Confland, 1997. **Annuaire téléphonique**, 2001. **Repère**, 2010. **Point de repère**, 2001. Cyberespace et science politique Hugo Loiseau, Elena Waldispuehl, 2017-11-29T00:00:00-05:00. Transition pour certains, rupture pour d'autres : l'envahissement du cyberespace dans nos vies soulève plusieurs questions. Cet ouvrage part du constat que nous vivons actuellement une véritable cybérisation individuelle et collective. Il expose les changements qu'apporte le cyberespace à l'étude et la pratique des sciences sociales et de la science politique.
