RAF Bomber Command in Fact, Film and Fiction Jonathan Falconer, 1996 RAF Bomber Command in Fact Film and Fiction is a bibliographical and media guide to the exploits of the command between 1939 1945 setting on record much of what has been written filmed or sound recorded in the English language

The Dam Busters W. B. Bartlett, 2011-10-15 The story of the legendary bouncing bomb attack on Germany's dams

, *Flight Into Darkness* Tom Neil, 2006 Many World War Two fighter pilots have written their wartime biographies Tom Neil included but most of these accounts are tempered by 60 years of hindsight along with concern for the feelings of others Tom Neil decided that it was now time to tell the stories that previously he couldn't and came up with a unique approach By writing them in a short story format and modifying various aspects for both dramatic effect and also to protect the identities of the individuals involved he has produced a series of moving and fascinating stories the first four of which are published in *Flight into Darkness* Illustrated with over 30 specially commissioned pencil sketches by award winning aviation artist Mark Postlethwaite

The Bombing War Richard Overy, 2013-09-26 The ultimate history of the Blitz and bombing in the Second World War from Wolfson Prize winning historian and author Richard Overy The use of massive fleets of bombers to kill and terrorize civilians was an aspect of the Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities *The Bombing War* radically overhauls our understanding of the War It is the first book to examine seriously not just the most well known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author's masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss

Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century

Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian's art The Times It is unlikely that a work of this scale scope

and merit will be surpassed Times Higher Education What distinguishes Mr Overy's account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear-eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century The Dictators Hitler's Germany Stalin's Russia won both the Wolfson Prize for History and the Hessell Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia's War Interrogations The Battle of Britain and The Dictators He lives in London **Thinks He's a Bird** Ian Campbell, 2022-01-11
