*Language Awareness* Paul A. Eschholz, Alfred F. Rosa, Virginia P. Clark, 1997. Engaging students with the power of language in everyday life. Ideal for the composition classroom, the thematic focus on language in *Language Awareness* allows students to study compelling topics such as Prejudice, Stereotypes, and Language. Chapter 8 and The Language of Persuasion, Politics, and Advertising. Chapter 12 while fostering an appreciation of the richness and vitality of the English language. Chosen particularly for their insight and appeal to students, the 70 readings by well-known writers and language experts encourage students to think carefully about the many dimensions of language, culture, and communication and to use their own language more responsibly and effectively in speech and in writing.

4 full chapters on writing. *Language Awareness* offers more writing coverage than any other reader of its kind, and this edition includes four new chapters. Along with three student papers, these 70 pages on the essentials of college writing introduce students to the writing process and cover the types of writing most often assigned to first-year college students: writing from experience, writing from reading, and writing from research with MLA style documentation. Documents for analysis and writing after every essay and every chapter. Called Language in Action, the documents that appear after every single essay include advertisements, screen shots of Web pages, cartoons, corporate documents, poems, magazine quizzes, humorous excerpts, and other real-life uses of public language. These documents are surrounded by editorial apparatus that invites students to practice the critical thinking they've just seen modeled in the essays. Every chapter now ends with one of two kinds of casebook. Cases in Point are groups of essays tightly focused around a controversial theme in language study, such as who decides what grammar is correct. Language in Use are sets of documents for comp.

**LANGUAGE AWARENESS, 10TH ED.** P. ESCHHOLZ, **The New Peace Linguistics and the Role of Language in Conflict** Andy Curtis, 2022-01-01. The idea of Peace Linguistics (PL) has been around for decades. However, the practice of PL has only occurred much more recently, only within the last few years, since the first credit-bearing university-level PL course was taught at Brigham Young University Hawaii in 2017. Since then, the field of NPL has grown beyond its original goals of using peaceful language and language that avoids or de-escalates conflict. The New Peace Linguistics (NPL) focuses on in-depth systematic analyses of the spoken and written language of some of the most powerful people in the world, such as presidents of the USA, as it is they who have the power to start wars or to bring peace. As the first book to be published on PL and on NPL, this work represents a ground-breaking study of the power of language to hurt and harm or to help and give hope. The first four chapters of the book, which provide the foundation on which the rest of the book is built,

introduce the concept of Peace Linguistics and the New Peace Linguistics starting with the origins of PL and coming to the present day The remaining Part Two and Part Three chapters present in depth systematic NPL analyses of George W Bush Colin L Powell Barack H Obama Donald J Trump and Joseph R Biden The concluding chapter reiterates the most important distinguishing and recurring features of NPL and looks at where the field may be headed in the future     Language Awareness ,1974     **Language Awareness** Paul A.
