## Instructions for operating the Kango Rotary Hammer Type 950

*Before making any attempt to connect  
the hammer to an electric circuit,  
please read these instructions carefully*

### SUPPLY VOLTAGE AND CURRENT

Check that the electrical supply to the work area is in the tolerance of the hammer.

The circuit should be fixed at a value not less than that given for the rated current on the nameplate of the machine. The fitting of the plug must be checked out by an experienced electrician who will decide on the correct type to use in case of any other faulting in the circuit.

### CONNECTING UP

This hammer is electrically wired with a 3 core cable in which the earth connection is grounded and a separate earth wire should not be connected.

Fit the 3 pin plug on the hammer lead into the 3 pin socket on the electric supply lead supplied. The bare end of the supply lead should then be fixed with a plug suitable for the supply point. It is a 3 pin plug it must go to the end of the electric lead and connections must be made in the earth pin.

The 3 pin plug on the hammer lead is normally permanently supplied for use with the optional 15 or 20 ft extension lead, which can be obtained from us on a charge basis.

When the 15 or 20 ft lead is used the ground of the lead should be connected to the terminal plug in form a weather-proof joint. The 15 or 20 ft extension lead may be connected to either another extension lead or the supply lead.

### MAINTENANCE

All new hammers are delivered packed with grease and tools for 1000.

The quantity of the grease in the hammer is adequate for 100 hours and the hammer should then be re-greased by hand, or by using a grease gun, at an interval of 100 hours after the start of the hammer.

It is found that tools are running dry at the end of the hammer. A little oil or grease should be applied to the tool at intervals after 100 hours from this, no other lubrication is required between 100 hour service.

Christopher Stone, 2007-09-12 Based on an award winning thesis this volume is a pioneering study of musical theatre and popular culture and its relation to the production of identity in Lebanon in the second half of the twentieth century In the aftermath of the departure of the French from Lebanon and the civil violence of 1958 the Rahbani brothers Asi and Mansour staged a series of folkloric musical theatrical extravaganzas at the annual Ba labakk festival which highlighted the talents of Asi's wife the Lebanese diva Fairouz arguably the most famous living Arab singer The inclusion of these folkloric vignettes into the festival's otherwise European dominated cultural agenda created a powerful nation building combination of what Partha Chatterjee calls the appropriation of the popular and the classicization of tradition The Rahbani project coincides with the confluence of increasing internal and external migration in Lebanon as well as with the rapid development of mass media technology of which the Ba labakk festival can be seen as an extension Employing theories of nationalism modernity globalism and locality this book shows that these factors combined to give the project a potent identity forming power **Popular Culture and Nationalism in Lebanon** is the first study of Fairouz and the Rahbani family in English and will appeal to students and researchers in the field of Middle East studies Popular culture and musical theatre
