Too many startups begin with an idea for a product that they think people want. Then they spend months sometimes years perfecting that product without ever showing the product even in a very rudimentary form to the prospective customer. The Lean Startup method teaches you how to drive a startup how to steer when to turn and when to persevere and grow a business with maximum acceleration. **LEAN ENTERPRISE** The core idea is to maximize customer value while minimizing waste. Simply lean means creating more value for customers with fewer resources. A lean organization understands customer value and focuses its key processes to continuously increase it. The ultimate goal is to provide perfect value to the customer through a perfect value creation process that has zero waste. **LEAN ANALYTICS** Lean Analytics opens up the world of collecting and analyzing data to new entrepreneurs by showing them how to use data as a powerful tool without getting consumed from it to build launch and grow their startup faster while focusing on the right metrics. Without data any good entrepreneur will lie to themselves about how good their business really is.
