Bilingual Community Education and Multilingualism Ofelia García, Zeena Zakharia, Bahar Otcu, 2012-09-15 This book takes up the lens of ethnolinguistic communities as they proudly educate their own children in their ways of speaking and being. These bilingual community education programs are unlike bilingual programs in US public schools where speakers of languages other than English are often minoritized. In these programs the children's linguistic and cultural diversity are their most valuable assets. But these bilingual community education programs are also different from how others have characterized heritage language programs. In these bilingual community education programs diasporic ethnolinguistic communities ensure that their children use their ways of speaking and being within a US global context. Thus their interest is not in their heritage as the language and the culture was performed in the past in another space but as a dynamic bilingualism and biculturalism that is performed by American children publisher website

Each chapter has been revised to stand alone, enabling the text to be taught and studied out of sequence if preferred. In addition, icons appear throughout the text signalling where extra information, summaries, data, lecture notes, test batteries, and more can be found on the author's accompanying website www.routledge.com/cw/cook. *Second Language Learning and Language Teaching* remains the essential textbook for all student teachers of modern languages and TESOL, as well as applied linguistics.
