Learnership 2014 And 2015

**Mpumalanga (South Africa).
Department of Education**

Learnership 2014 And 2015:

Factors in Studying Employment for Persons with Disability Barbara Altman, 2017-09-17 This collection examines less frequently analyzed aspects of employment for persons with disabilities offering a variety of approaches to the conceptualization of work and how it differs across cultures organizations and types of disability Annual Report South Africa. Department of Public Service & Administration, 2016 *Handbook of Research on Implications of Sustainable Development in Higher Education* Meletiadiou, Eleni, 2023-02-10 Research in the field of education for sustainable development ESD is of growing concern to meet the needs of the diverse student populations in various higher education institutions People around the world recognize that current economic development trends are not sustainable and that public awareness education and training are key to moving society toward sustainability Although ESD continues to grow both in content and pedagogy and its visibility and respect have grown in parallel education officials policymakers educators curriculum developers and others are called upon to rethink education in order to contribute to the achievement of the goals of sustainable development in higher education The Handbook of Research on Implications of Sustainable Development in Higher Education provides insight regarding the implications of ESD for teaching learning and assessment in higher education and demonstrates the value of adopting an ESD lens by broadening and strengthening the evidence base of the impact that this can make for students educators and society as a whole Covering key topics such as assessment globalization and inclusion this reference work is ideal for university leaders administrators policymakers researchers scholars practitioners academicians instructors and students The Skills Balancing Act in Sub-Saharan Africa Omar Arias, David K. Evans, Indhira Santos, 2019-01-31 Despite strong recent economic growth Sub Saharan Africa has levels of economic transformation poverty reduction and skill development far below those of other regions Smart investments in developing skills aligned with the policy goals of productivity growth inclusion and adaptability can help to accelerate the region's economic transformation in the 21st century Sub Saharan Africa's growing working age population presents a major opportunity to increase shared prosperity Countries in the region have invested heavily in building skills public expenditure on education increased sevenfold over the past 30 years and more children are in school today than ever before Yet systems for building skills in this population have fallen short and these shortcomings significantly impede economic prospects In half of the countries fewer than two in every three children complete primary school even fewer reach and complete higher levels of education Learning outcomes have been persistently poor leading to substantial gaps in basic cognitive skills literacy and numeracy among children young people and adults The literacy rate of the adult population is below 50 percent in many countries functional literacy and numeracy rates are even lower Systemwide change is required to achieve significant progress Multiple agencies at the central and local levels are involved in skills development strategies making skills everyone's problem but no one's responsibility Policies and reforms need to build capacity for evidence based policies and create

incentives to align the behaviors of all stakeholders with the pursuit of national skills development goals The Skills Balancing Act in Sub Saharan Africa Investing in Skills for Productivity Inclusivity and Adaptability lays out evidence to inform the policy choices that countries will make in skill investments Each chapter addresses a set of specific questions drawing on original analysis and synthesis of existing studies to explore key areas How the skills appropriate to each stage of the life cycle are acquired and what market and institutional failures affect skills formation What systems are needed for individuals to access these skills including family investments private sector institutions schools and other public programs How those systems can be strengthened How the most vulnerable individuals those who fall outside the standard systems and have missed critical building blocks in skills acquisition can be supported Countries will face trade offs often stark ones that will have distributional impacts and a bearing on their development path Committed leaders reform coalitions and well coordinated policies are essential for taking on the skills balancing act in Sub Saharan Africa

Getting Skills Right
Community Education and Training in South Africa OECD, 2019-03-14 Adult learning systems play a crucial role in helping people adapt to the changing world of work and develop relevant skills Community Education and Training has been brought forward as a possible way to foster adult learning in South Africa especially among disadvantaged groups South Africa

Bombardier Abroad David P. Thomas, 2018-10-10T00:00:00Z In Bombardier Abroad Thomas examines several cases of the Canadian aerospace giant's work in the high speed rail sector in South Africa China Tibet and Israel Palestine and argues that these projects are deepening existing social and political tensions By participating in these infrastructure projects Thomas argues Bombardier is both inserting itself into highly contested social and political climates and profiting from actions that further exacerbate existing conditions of dispossession and inequality Thomas also examines the various ways in which the Canadian state supports the work of Bombardier in these countries Centred around a theoretical framework that combines concepts of dispossession political economy and important interventions from the field of settler colonial studies Bombardier Abroad is a critical look at the problematic practices of a Canadian corporation and the ways in which the Canadian state is culpable

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerma, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country's apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping

police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents race gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations

Better Choices Greg Mills,Mcebisi Jonas,Haroon Borat,Ray Hartley,2022-04-01 A must read accessible and skilful account of South Africa s socio economic challenges policy and governance choices THEMBA MASEKO All the numbers on South Africa s crisis dashboard are blinking red The economy is failing to grow and more and more young people find themselves on the outside looking in as education falters and jobs disappear Energy and transport are in crisis Governance is floundering as debt mounts and government runs out of money Better Choices is a collection by South Africa s top thinkers on the political economy providing an unflinching account of the myriad challenges the country faces The picture that emerges is of a nation on the brink of a catastrophic slide into failure unless better if tough policy choices are made As stark as these problems are their solutions are tantalisingly close at hand The chapters in this book outline exactly the solutions those better choices that need to be made by leadership to alter the country s bleak trajectory South Africa cannot talk its way out of trouble Key to success is removing the sources of friction the red tape over regulation and rents that slow down investment This is only possible if a more effective focused government acts decisively Compiled by The Brenthurst Foundation Africa s leading think tank on economic development Better Choices is for those who want to build a positive inclusive future for South Africa

Human Resources Development Review 2008 Andre Kraak,Karen Press,2008 Through 25 chapters authored by some of the leading researchers in the field the Human Resources Development Review 2008 provides an extensive overview of the contextual factors driving human resources development in South Africa A key theme throughout the volume is the importance of a multi faceted skills development strategy operating at three levels The first entails high skills policies aimed at expanding export oriented manufacturing production and services provision particularly in new globally competitive niche areas The second relates to the economy s ongoing need for intermediate skills as is evident in the shortage of skilled artisans and technologists Finally the provision of basic entry level skills is important in view of the urgent need for large
