The Learning Styles Helper's Guide Peter Honey, Alan Mumford, 2000

Achieving Software Quality Through Teamwork Isabel Evans, 2004 Successful software depends not only on technical excellence but on how members of the software team work together Written in easy to understand language by a leading expert in the field this ground breaking volume provides an overview of the team culture required to develop quality software Reflecting the different views on the nature of software quality the book helps groups in a software team to communicate more effectively and to overcome the conflict created by their different perceptions of quality You learn the roles and activities of team members including customers throughout the life of a software product from before the software development starts and during the software development lifecycle to after the software has been deployed and is in use

Multiple Intelligences Around the World Jie-Qi Chen, Seana Moran, Howard Gardner, 2009-07-07 Howard Gardner's theory of Multiple Intelligences MI has become a cornerstone of American education This is the first book to draw upon an international network of MI practitioners to share stories and strategies of educational innovation Each contributor addresses key questions of MI application How have different people implemented MI How do different cultures assimilate this intelligence theory to fit their educational values and traditions What kinds of cultural conflicts are encountered along the way And what universal lessons can be drawn from these experiences

Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner
