Unit 1 Respiration

Topic 1.1 The human respiratory system

Exercise 1.1 The human respiratory system

1

Letter	Name
A	diaphragm
B	intercostal muscle
C	rib
D	lung
E	air sacs
F	bronchus
G	bronchiole
H	trachea (windpipe)
J	larynx (voicebox)

2

Letter	Function
C	protects the lungs
D	where oxygen gets into the body
E	where oxygen goes into the blood and carbon dioxide comes out
F	delivers air to the lungs
G	carries air from the bronchus, deep into each lung
H	carries air from the bronchioles to each air sac
J	makes sounds

3 Look for an answer that:

- is written entirely in the learner's own words, rather than copied from the text in the Learner's Book or elsewhere
- mentions each part in the correct sequence
- gives a brief description of each part.

Topic 1.2 Gas exchange

Exercise 1.2 Gas exchange

- 1 The entries should be arranged in order of either decreasing or increasing body mass. For example:

Mammal	Body mass in g	Total surface area of air sacs in m ²
human	80 000	70
sheep	68 000	60
fox	20 000	40
rabbit	1000	2
rat	300	0.8
mouse	20	0.1

- 2 The larger the body mass, the larger the total surface area of the air sacs. Learners might also add that the relationship is not proportional.
- 3 The larger an animal is, the more oxygen it will need, because it will contain more cells that are all respiring and using up oxygen. Having a larger surface area of air sacs enables more oxygen to diffuse into the body at the same time, which helps to supply the demands of the respiring cells. A similar argument could be put forward relating to the need to get rid of carbon dioxide produced by the respiring cells.

Topic 1.3 Breathing

Exercise 1.3A Measuring lung volumes

- 1 Use the measuring cylinder to measure a known volume of water – say 50 cm³. Pour the water into the bottle and mark its level as representing 50 cm³. Repeat with another known volume – say another 50 cm³ – and mark its level as 100 cm³. Keep doing this until they reach the top.

Workbook with Aristotle and AI provides complete answers to all of the exercises in the Elements of Style Workbook with Aristotle and AI. Because in the age of AI users can actually look up correct answers themselves, the Answer Key to the Workbook becomes an optional convenience. Also because the Answer Key is actually longer than the Workbook itself, it more than doubles the heft of the Workbook when combined. For these reasons, the Answer Key to Elements of Style Workbook with Aristotle and AI is sold separately from the Workbook. The Answer Key includes many human created responses and many AI generated responses. The more detailed genre analyses were performed by ChatGPT and are included in this Answer Key, providing a thorough and accurate assessment free from human error. At the same time, because AI was used in many of the composition responses, additional learner observations not reported here are also very possible and are encouraged.

Answer Book Student Workbook Jean Dorrell, 1994-01-01 **Answers for Kids** , 2013-02-01 Instructor's Answer Guide for Student's Workbook in American Government William Vernon Holloway, Emile Bertrand Ader, 1956 Better Answers Ardith Davis Cole, 2008-12-31

Student's writing skills are improving tremendously. Last year's fourth graders started using the sandwich method mid year and almost all of them scored in the highest possible category when they took the state's standardized English language arts test just a few months later. Wells Central Schools NY Wells Central is just one of numerous schools that attribute their success to Ardith Davis Cole's Better Answers process. Since 2002 her book Better Answers has offered teachers and school districts a powerful alternative to test prep workbooks. It presents a dramatically different instructional model that helps students construct thoughtful test responses but it also prepares them for any task requiring thorough, cogent answers to questions and prompts both in and out of school. Now with students tested more frequently than ever and with teachers increasingly concerned about incorporating substantive test taking skills into children's learning, Ardith Cole responds with a new updated and expanded edition of Better Answers. Informed by Ardith's ongoing work in classrooms where students struggle over constructed response tasks, the new edition makes the Better Answers sandwich even easier to implement. The book has also been significantly reorganized as well as expanded to include two new chapters: Understanding the Prompt and What to do When. Also included is a resource packed CD ROM that contains everything teachers need to support their lessons and is a great tool for staff development, lesson plans for text based and self based responses, power point slides, charts and other visual supports, sets of sample texts with prompts, sample student responses, assessment forms, extensive bibliography of print and online resources. The Better Answers process is easy to grasp and uses a gradual release instructional process that begins with teacher modeling, invites increasing amounts of student participation and eventually moves students into independent response writing. The book clearly explains each element of the process and provides helpful activities, authentic classroom vignettes and tips on how to handle typical stumbling blocks along the way.
