

# LED Buying Guide

There are some tips and tricks that can be useful for buying [LED TV Price in pakistan](#) sets at the local stores. These techniques will ensure that your decision is beneficial over the long run, and the tricks you learn will work according to your needs.

This article is about, this article will help you achieve the best results. After the decline of simple plasma TVs, buying modern connected smart LED TVs with technology became difficult for the average consumer. However, after reading our advice, you'll be more confident about making the right choice for yourself.

## The best screen size for an LED smart TV:

The size of the screen on an LED TV is among of the most important criteria to look at when shopping for the top intelligent LED television. In the electronics market there are a variety of sizes of LED TVs' screen sizes which range from 20 inches all the way to 90 + inches. However, this is contingent on the place you'll put your LED TVs with smart features. The size of your TV may differ for rooms and TV lounges. To settle this issue, you should consider watching distances in advance. However, you might be wondering what method to use to determine this distance. Right? Here's a general rule of thumb, which is provided below to make it easier for you.

If you are looking for the distance of viewing of 6-8 feet, an optimum size TV of 32 inches is recommended. Similar to 8-11 feet, and 11-13 feet, the sizes for screens ought to be 55 and 50 inches, respectively. For 13-15 feet, a 60-inch television size is suggested. Also, for 15 feet of TV size 65 inches or more television size is considered appropriate and for the rest of us.

## Selecting either HD or Ultra HD (4K) Smart LED televisions

A HD intelligent LED television is able to display 1920x1080p resolution. This means, on the normal HD LED TV you'll find approximately 2 million pixels which are, in simple terms, pixels that determine image quality and decide the clarity and clarity in the images. Additionally, 4K TVs are ultra HD TVs that have a high resolution screen of 3840x2160. This implies that the TV's image is full of details, vivid colors, and clear images are designed for having a reliable and stable entertainment experience.

4.K Smart LED televisions are becoming popular every day. However, they are expensive in terms of price. In the end, the cost of a product will be the deciding factor when you consider the overall cost. If the product you are considering is affordable, it is strongly suggested to go with the 4k LED smart TV since you won't be buying expensive products on a regular basis, but only for an extremely short time.

The purchase of a smart LED TV is about choosing an item that will last for a long time. There is no compromise on quality entertainment with the advent of Netflix and other streaming online channels.
