description **Social Development in South Africa** Ndangwa Noyoo,2025-10-29 This book interrogates and discusses
social development in post apartheid South Africa as both an approach to an overarching development process and an
envisaged end state of well being It critically analyses social development in the context of a middle income African country
that is still not only shaped and defined in many ways by a corrosive history of colonialism and apartheid but is also still
saddled with a plethora of social ills which are by products of the former eras Despite the former governing party s
characterisation of South Africa as a Developmental State the country remains one of the most unequal societies in the world
The book argues that the vestiges of colonialism and apartheid cannot be addressed solely by economic growth and
associated activities but require a multiplicity of social economic and political interventions that should be marshalled by
both the state and civil society through a robust comprehensive and transformative social development process that is
underpinned by indigenous knowledge systems and forms of care that respond to human needs at the micro and macro levels
The book argues that social development is one of the best vehicles that could enable South Africa to decisively deal with the
remnants of colonialism and apartheid as well as become a developmental state Furthermore it elucidates how social
development should result in among others improvements in human well being social relations and social institutions that are
equitable sustainable and compatible with principles of democratic governance and social justice It proffers practical steps
on how social development could enable South Africa to become a developmental state Lastly the book shows how social
policy and economic policy can be conjoined in South Africa to arrive at a holistic process of social development that will
facilitate the building of a developmental state in the country Social Development in South Africa is primarily intended for
students academics and researchers who are interested in social development international or African social work community
