Globe Manual ,2015-08-05 Excerpt from Globe Manual For Use With Stand and Suspension Globes As this is an elementary work on the globe no attempt is made at precise exactness in statement and definition for example the earth is regarded as a sphere the celestial equator a projection of the earth s equator outward against the starry dome amplitude latitude applied to the celestial sphere date line the 180th meridian etc 90 west means 90 west longitude 40 north 40 degrees north latitude The sun is spoken of as moving seeing the earth etc The earth is spoken of as moving in the direction of its noon westward in its journey around the sun Some problems and statements are true for the northern hemisphere only A technical nomenclature is purposely avoided The pamphlet is divided into Five Parts The teacher may begin with any one and follow in any order While it has been prepared for use with the suspended globe the work may be used with any globe It is an advantage for each pupil to have a small 25 or 50 cent globe An attempt has been made to be rather comprehensive in topics but brief in treatment Instead of giving the rules for the solution of problems examples are given and processes described leaving the teacher and pupils to make the rules Some repetitions occur from the fact that the pamphlet is divided into five parts The publishers will be glad to have any errors pointed out that they may be corrected in other editions While this manual was written primarily to accompany the suspension or Hanging Globes it is equally applicable to globes mounted on standards About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Franklin Globe Manual* ,1872 **Rand-McNally Globe Manual for Schools and Families ...** ,1898 **The Terrestrial Globe Manual** George S.
