

Learning Walks: Tools and templates for getting started

This booklet gives you some tools and templates that you can use to help you plan and conduct your Learning Walks.

The templates are designed to give you ideas and frameworks for planning your walk, collecting data during the walk and reflecting on what your walk has taught your walkers about the school.

When you are planning your walk you will need to agree protocols with the staff from the school where you are walking and with the walkers. Part of this agreement will be about the tools and forms that you use. You can use the frameworks in this guide as a basis for these discussions but your walk will be more successful if you adapt them to suit your context, your schools and your staff.

There are some questions your school will need to consider BEFORE you walk. We have learnt that paying attention to these questions as part of the planning of the walk will help your Learning Walks to be a successful and useful learning experience for all those involved.

- What will you have to do to get leaders on board and active?
- Who will participate and why?
- In what Continuing Professional Development (CPD) have teachers participated? What was its focus and what were the specific outcomes?
- How will you select the classrooms to visit?
- What are the timing and resource implications (before, during and after the walk)?
- How will teachers be notified?
- How will teachers be involved?
- What will be the focus for the enquiry?
