

BULGE BUSTER KIT INSTRUCTIONS

The Lee Bulge Buster Kit restores free function of rimless cases that have low base bulges. Low base bulges usually occur from chambers that do not fully support the cartridge or cases resized in carbide die from manufacturers other than Lee.

These show a noticeable step ring near the base. You will most likely find cases with these problems in mixed range brass.

WARNING Steel parts in this product may be alloyed with trace amounts of lead and other elements which are known to the State of California to cause reproductive harm and cancer. For more information, go to www.P65Warnings.ca.gov. To prevent exposure, do not alter the product by welding, grinding, etc.

SERVICE PARTS

Sleeve	881653
Punch	881657
Red Sizer Box	8S2600

①

► Install push pin into shell holder slot.

②

► Remove adjusting screw and crimp sleeve from appropriate Lee Factory Crimp die. Install guide sleeve into the Factory Crimp body.

Factory Crimp Die Selection

280 Auto	90067
357 Sig. 40 S&W, 10mm	90062
400 COR-BON, 45 GAP, 45 ACP, 45 Win Mag	90064
41 Action Express	90498

③

► Raise the ram with push pin to the top of it's stroke. Screw the Factory Crimp Die into the press until the push pin enters the Factory Crimp Die—a minimum of 1/4 inch. (This will push the case completely through the carbide insert.)

④

► Install the case catcher over the guide sleeve. If you own a Pro 1000, Pro 4000 or Loadmaster, the guide sleeve is sized to accept the case feed tubes. Also sold separately # 90060

► Squeeze the tube when removing from the guide sleeve and you can transfer the filled tube directly to your progressive press.

⑤

► Slide a resized or loaded case onto the base of the push pin (case mouth up) and raise the ram to push the case completely through the die. The cases will accumulate in the catch container.

If you are using Lee carbide reloading dies, you likely will need to process cases during the first reloading only. Lee sizing dies have a special contour grind that usually prevents the objectionable base bulge that commonly occur on ordinary carbide dies.

Need to increase bulge busting speed?

Lee App press & App Bulge Buster kit allow you to automate case feeding and process cases as fast as you can pull the lever.
