Legal Framework For The Admission Of Fdi:

Legal Framework for the Admission of FDI Thomas Pollan, 2006 The law on foreign direct investment FDI belongs to the fastest changing legal field in international law Investors and the host state have long left behind a relationship dominated by the host state's desire to screen and choose FDI In the current market for FDI both parties try to assert influence but in the end the scarcity of FDI is the decisive factor This book provides an in depth study of the legal framework for the admission of FDI and presents insights into the pros and cons of various admission models Its goal is to identify legal and policy options that serve the host state's and investor's common needs The book is a comprehensive easy reference handbook that is of interest to lawyers academics and policy makers *International Legal Materials*, 2007 *Shaping the Single European Market in the Field of Foreign Direct Investment* Philip Strik, 2014-12-01 The Treaty of Lisbon 2009 has brought foreign direct investment FDI within the scope of the European Union's common commercial policy CCP In light of this development this book analyses the internal and external dimension of EU law and policy in the field of FDI It takes four perspectives i the operation of the internal market mechanism to direct investment ii the implications of the Lisbon amendments to the CCP under Article 207 TFEU for the Union's competence and practice in the field of FDI iii the interaction between EU law and Member States bilateral investment treaties BITs with third countries iv the interplay between EU law and BITs that are currently in force between two Member States intra EU BITs The book focuses on the extent to which the European Union operates as a Single Market for EU and non EU investors In doing so it analyses the EU and international regulatory framework on the admission treatment and protection of FDI within to and from the Single European Market It uses close jurisprudential analysis and examines the context purpose and evolution of EU legal integration in the field of FDI It thereby traces the principles underlying the European international economic order in the field of FDI **Law and Practice of Investment Treaties** Andrew Paul Newcombe, Lluís Paradell, 2009-01-01 The book focuses on the substantive protections accorded to investors and investments and on the variations among jurisdictions Among the many specific issues and topics that arise in the course of the discussion are the following problems of transparency and conflict of interest the recent growth in IIAs between and among developing nations the effect of new model bilateral investment treaties BITs the ability of non disputing parties to participate in investor state arbitration theories of the interaction of foreign direct investment FDI and BITs investor state arbitration as an evasion of public regulatory authority the role of investment funds in international investment fork in the road provisions and institutional versus ad hoc arbitration International business and other investors will greatly appreciate the in depth information and insightful guidance in this solidly useful book It will also be welcomed by jurists and students as a significant milestone in the development of principles in a quickly growing field of practice that is still plagued with inconsistencies **Lex Petrolea and International Investment Law** Nima Mersadi Tabari, 2016-09-01 *Lex Petrolea and International Investment Law* Law and Practice in the Persian Gulf offers readers a detailed analysis of

jurisprudence on the settlement of upstream petroleum disputes between host states in the Persian Gulf and foreign investors Dr Nima Mersadi Tabari considers the historical political and socio economic roots of the existing frameworks and levels of protection offered to foreign investors With particular focus on petroleum related disputes he initially delivers a comprehensive survey of the jurisprudence of international investment law and investment treaty arbitration Following on from this in three dedicated chapters the author provides in depth analysis of the legal regimes governing the matter in the major producers of the region Saudi Arabia Iraq and Iran A key resource for all professionals working on legal issues arising from foreign direct investments in natural resources this book draws a detailed picture of the legal regime governing the upstream sector in the most important geographical region for the international oil and gas sector **The Legal**

Framework of EU-China Investment Relations Wenhua Shan, 2005-10-21 EU investment in China has increased dramatically since the early 1990s and is poised to increase further in light of Chinas recent accession to the World Trade Organisation This book explores and critically appraises the existing legal framework governing EU China investment relations particularly EU investment in China The current legal framework is composed of Chinese law EU law and applicable international law but the Chinese law is unsystematic and hard to discover and the EU has acquired only shared external investment competence which is vaguely defined The applicable international treaties are incomplete incoherent or either too general or too specialised Besides this the international fora to settle investment disputes are still not readily available Furthermore while law has played a very important role in decision making by EU investors the Chinese legal system is generally perceived as ineffective and lacking in effective enforcement of court and arbitration decisions What the book demonstrates is that the time is ripe for a new international legal framework for foreign investment in China and that as EU China economic and political relations continue to improve construction of such a framework is not only necessary but also possible **Regulation of Foreign Investment** Zdenek Drabek, Petros C. Mavroidis, 2013 Introduction Zdenek Drabek and
