OVERVIEW

adidas Base Station represents the latest advancement in performance monitoring. The team at the adidas Group goes all-in and teams a powerful software to our field of help from athletes and coaches track physical performance and gain an edge at their competition.

Teams can now accurately plan, track, test, measure and report on the performance of athletes with our integrated system.

The adidas Base Station System is designed to perform tasks that are necessary and essential, including:

- Provide real-time insights during training
- Track and measure impact and force
- Simplify the collection and management of data
- Add flexibility with a highly portable system

HOW IT WORKS

adidas Base Station uses some of the most advanced technologies along with computer vision, open source facial tracking and machine learning to provide real-time monitoring of athletes in real time.

adidas brings together GPS, heart rate, velocity, force and monitoring, and other technologies along with an understanding of athlete athletes and their training and developmental needs. Its patented algorithms process millions of data points in less than a second, resulting in:

WHAT IT MEANS

adidas.com has designed simple solutions of data points and how they show in simple, intelligent feedback for coaches who need to understand how training is impacting athletes and their performance.
