

Microeconomics

Wyn Morgan, Michael Katz and Harvey Rosen

Microeconomics, 3rd European edition offers comprehensive and accessible coverage of microeconomic theory, explaining how this is used to analyse and evaluate contemporary market systems. The book draws on relevant real-world examples to highlight how theory can help to solve or understand a range of problems and is a central basis for thinking like an economist.

Key features include:

- **New Learning Outcomes**, which act as signposts to the core concepts that students should grasp in each chapter
- Modern topics such as **game theory** and **asymmetric information**, which are given the same careful treatment as traditional issues
- Up to date **European examples** provided throughout the text, drawing on a variety of contexts including housing, education, industry and agriculture, bringing the theory to life
- **Discussion Questions**, encouraging students to apply the knowledge acquired from each chapter to specific situations
- **Progress Checks** included within each chapter to test students' knowledge as they learn. Answers to the Progress Checks are supplied at the end of the book
- **Mathematical appendices**, to provide higher level material for more advanced students

Wyn Morgan is an Associate Professor in Economics and a Research Fellow in the Centre for Research in Economic Development and International Trade (CREDT) in the School of Economics at the University of Nottingham, UK.
