Britain, 1992      *Manual Handling in Health and Social Care, Second Edition* Michael Mandelstam, 2021-04-21 This book lays out the current legal requirements of manual handling in a non technical way and includes case studies illustrating the law applied in practice across health social care and educational settings The main part of the book is an A Z guide providing quick access to legislation and common law rules applying to personal injury cases      **Community Care Practice and the**

**Law** Michael Mandelstam, 2005 This third edition of *Community Care Practice and the Law* has been substantially rewritten and restructured to reflect the rapid legal and policy changes affecting the community care field It provides comprehensive and jargon free explanations of both community care legislation and other areas of the law directly relevant to practitioners Topics covered include assessment and eligibility criteria fair access to care and waiting times placing people in care homes non residential domiciliary and home care services carers assessments and services home adaptations and disabled facilities grants direct payments continuing health care and health services generally including community equipment services joint working between local authorities and the NHS single assessment process intermediate care decision making capacity and incapacity information sharing adult protection human rights and disability discrimination health and safety at work legislation including manual handling people subject to immigration control including asylum seekers care standards Numerous examples of legal cases and ombudsman investigations clearly illustrate the practical impact of legislation on community care A separate chapter provides an at a glance view of the whole range of legislation underpinning the everyday work of practitioners The author also identifies the underlying mechanisms tensions and problems affecting community care law and practice Primarily covering England in detail much of the legal case law covered and the legal principles involved are of general relevance across the United Kingdom and where material is not directly applicable to Wales Scotland and Northern Ireland short summaries offer general pointers for the position in these three countries This book is an essential guide for practitioners and managers in both the statutory and voluntary sectors policy makers in local and central government advocates lawyers and social work students      **EU Law for UK Lawyers** Aidan O'Neill, 2011-07-27 This is the

second edition of this wide ranging survey of EU law The new edition has been significantly enlarged Unlike many other EU law books it takes full account not only of the Lisbon Treaty changes to the EU treaties but also of the fact that the EU Charter of Fundamental Rights now has the same legal value as the EU Treaties It therefore not only covers the relevant case law of the Court of Justice of the European Union but also ties that case law into the decisions of the European Court of Human Rights because it is clear that EU law can only now properly be understood and applied against this background of European fundamental rights jurisprudence The book sets out very clearly the broad shape of the European Union's legal

systems while also giving the reader a good feel for the policy motivations in the Court of Justice of the European Union and the scope of EU legislative activity Written in a lively and accessible style it is an ideal guide for practitioners whether those coming to the subject for the first time or those already with a background in EU law Among the additions and changes in this expanded edition the book includes new chapters on the EU and fundamental rights on commercial agency on criminal law and on private international law in the EU It also contains a full treatment of EU equality law The first edition EC Law for UK Lawyers by Aidan O Neill and Jason Coppel ISBN 9780406024596 was published by Butterworths in 1994
