Michael Kimmel Book:

Angry White Men Michael Kimmel, 2013-11-05 We can't come off as a bunch of angry white men Robert Bennett chairman of the Ohio Republican Party One of the enduring legacies of the 2012 Presidential campaign was the demise of the white American male voter as a dominant force in the political landscape On election night after Obama was announced the winner a distressed Bill O'Reilly lamented that he didn't live in a traditional America anymore He was joined by others who bellowed their grief on the talk radio airwaves the traditional redoubt of angry white men Why were they so angry Sociologist Michael Kimmel one of the leading writers on men and masculinity in the world today has spent hundreds of hours in the company of America's angry white men from white supremacists to men's rights activists to young students in pursuit of an answer *Angry White Men* presents a comprehensive diagnosis of their fears anxieties and rage Kimmel locates this increase in anger in the seismic economic social and political shifts that have so transformed the American landscape Downward mobility increased racial and gender equality and a tenacious clinging to an anachronistic ideology of masculinity has left many men feeling betrayed and bewildered Raised to expect unparalleled social and economic privilege white men are suffering today from what Kimmel calls aggrieved entitlement a sense that those benefits that white men believed were their due have been snatched away from them *Angry White Men* discusses among others the sons of small town America scarred by underemployment and wage stagnation When America's white men feel they've lived their lives the right way worked hard and stayed out of trouble and still do not get economic rewards then they have to blame somebody else Even more terrifying is the phenomenon of angry young boys School shootings in the United States are not just the work of misguided youth or troubled teens they're all committed by boys These alienated young men are transformed into mass murderers by a sense that using violence against others is their right The future of America is more inclusive and diverse The choice for angry white men is not whether or not they can stem the tide of history they cannot Their choice is whether or not they will be dragged kicking and screaming into that inevitable future or whether they will walk openly and honorably far happier and healthier incidentally alongside those they've spent so long trying to exclude

The History of Men Michael S. Kimmel, 2005-03-10 A collection of historical articles and essays by a pioneer in the field of masculinity studies

The Gendered Society Michael S. Kimmel, 2000 They say that we come from different planets men from Mars women from Venus that we have different brain chemistries and hormones and that we listen speak and even define our morals differently How is it then that men and women live together take the same classes in school eat the same food read the same books and receive grades according to the same criteria In *The Gendered Society* Michael S. Kimmel examines our basic beliefs about gender arguing that men and women are more alike than we have ever imagined Kimmel begins his discussion by observing that all cultures share the notion that men and women are different and that the logical extension of this assumption is that gender differences cause the obvious inequalities between the sexes In fact he asserts that the reverse is true gender

inequality causes the differences between men and women Gender is not simply a quality inherent in each individual it is deeply embedded in society's fundamental institutions the family school and the workplace The issues surrounding gender are complex and in order to clarify them the author has included a review of the existing literature in related disciplines such as biology anthropology psychology and sociology Finally with an eye towards the future Kimmel offers readers a glimpse at gender relations in the next millennium Well written well reasoned and authoritative The Gendered Society provides a thorough overview of the current thinking about gender while persuasively arguing that it is time to reevaluate what we thought we knew about men and women

Guyland Michael Kimmel, 2018-07-24 Sociologist Michael Kimmel tackles the world of late adolescent boys and young men the guys of America aged 16 to 26 Although these young men may appear to be growing up too fast they are in fact becoming adults quite slowly From the mundane video games movies and television sports and music to the extreme violent fraternity initiations sexual predation and school shootings Kimmel reveals the culture that every boy must navigate on his way to adulthood whether he is a participant or a bystander Kimmel asserts that what happens to boys in this period often determines the type of men they will be for the rest of their lives Manhood in America Michael S. Kimmel, 2006 Publisher Description

Misframing Men Michael Kimmel, 2010-05-20 This past decade has witnessed an extraordinary transformation in men's lives For years wave after wave of the women's movement a movement that reshaped every aspect of American life produced nary a ripple among men But suddenly men are in the spotlight Yet the public discussions often seem strained silly and sometimes flat out wrong The spotlight itself seems to obscure as much as it illuminates Old tired clichés about men's resistance to romantic commitment or reluctance to be led to the marriage altar seem perennially recyclable in advice books and on TV talk shows but these days the laughter feels more forced the defensiveness more pronounced Pop biologists avoid careful confrontation with serious scientific research in their quest to find anatomical or evolutionary bases for promiscuity or porn addiction hoping that by fiat one can pronounce that boys will be boys and render it more than a flaccid tautology And political pundits wring their hands about the feminization of American manhood as if gender equality has neutered these formerly proud studs Misframing Men a collection of Michael Kimmel's commentaries on contemporary debates about masculinity argues that the media have largely misframed this debate Kimmel among the world's best known scholars in gender studies discusses political moments such as the Virginia Military Institute and Citadel cases that reached the Supreme Court he participated as expert witness for the Justice Department along with Promise Keepers rallies mythopoetic gatherings and white supremacists He takes on antifeminists as the real male bashers questions the unsubstantiated assertions that men suffer from domestic violence to the same degree as women and examines the claims made by those who want to rescue boys from the misandrous reforms initiated by feminism In writings both solidly grounded and forcefully argued Kimmel pushes the boundaries of today's modern conversation about men and masculinity
