## **Microeconomics For Public Decisions:**

*Microeconomics for Public Decisions* Anne C. Steinemann, William C. Apgar, Howard James Brown, 2005 *Microeconomics for Public Decisions* is a revision of the Apgar Brown *Microeconomics for Public Policy* text. It was revised after conducting interviews with students and former students now practitioners and asking them what economic concepts and methods they use most frequently in their jobs. *Microeconomics for Public Decisions* is designed to focus on essential principles and analytical techniques for making decisions that affect the public interest. It blends theory with applications and discussions so students will understand how and why microeconomics is important, how to perform economic analyses, and how to evaluate economic analyses performed by others. *Microeconomics for Public Decisions* Anne Steinemann, 2020-06-26 Fourth Edition. *Basic Methods of Policy Analysis and Planning* Carl Patton, David Sawicki, Jennifer Clark, 2015-08-26 Updated in its 3rd edition. *Basic Methods of Policy Analysis and Planning* presents quickly applied methods for analyzing and resolving planning and policy issues at state, regional, and urban levels. Divided into two parts: Methods, which presents quick methods in nine chapters and is organized around the steps in the policy analysis process; and Cases, which presents seven policy cases ranging in degree of complexity. The text provides readers with the resources they need for effective policy planning and analysis. Quantitative and qualitative methods are systematically combined to address policy dilemmas and urban planning problems. Readers and analysts utilizing this text gain comprehensive skills and background needed to impact public policy.

Key issues discussed include the contribution of public relations to strategic management in organizations, the feminization of public relations, the function of rhetorical study in our understanding of modern corporate dialogue, international perspectives of public relations.
