

Child seat anchors – LATCH type

This vehicle is equipped with two LATCH (Lower Anchors and Tethers for Children) type anchors (at each of the outboard second-row seats and third-row seats) for the installation of a LATCH child seat with matching mounting fittings.

Warning!

Children too big for a toddler restraint must ride in seats using regular seat belts. Position shoulder belt across chest and shoulder, not face or neck.

A booster seat may be necessary to achieve proper belt positioning for children over 41 lbs until they reach a height where a lap/shoulder belt fits properly without a booster.

Install child seat according to manufacturer's instructions.

The child seat must be firmly attached to the right and left side anchors.

An incorrectly mounted child seat may come loose during an accident which could result in serious injury or death to the child.

Damaged or impact damaged child seats or child seat mounting fittings must be replaced.

Do not leave children unattended in the vehicle, even if the children are secured in a child restraint system.

The LATCH anchors on the outboard second-row seats are covered with upholstery blends.

- ① Anchors, outboard second-row seats
- ② Indicates the position of the anchors

- Move the respective outboard second-row seat backrest to an upright position (→ page 134).
- Push the upholstery blend to the side.
- Install a LATCH type child seat according to the manufacturer's instructions.

The LATCH anchors on the third-row seats are blended with covers.

- ③ Anchorage ring covers, third-row seats
- Remove anchorage ring covers ③ from third-row seat on which a child seat is to be installed.
