TWENTY-FIRST CENTURY'S FUEL SUFFICIENCY ROADMAP STEVE ESOMBA, Dr.,2012-06-06 We badly need new sources of clean energy to generate electricity heat and power our industries homes and workplaces Up to now we have relied on and used only fossil fuels to power our industrial and domestic activities The byproducts of fossil fuels include irreversible pollution and contamination of our Earth climate change global warming and increase in pathogenic and medication resistant diseases Exhaustible fossil fuels are expensive to produce and distribute and not everybody can afford them Why not switch to natural non polluting inexpensive inexhaustible fuels such as solar wind water etc fuels This is the timely message contained in TWENTY FIRST CENTURY S FUEL SUFFICIENCY ROADMAP You can make this message realisable Go on reading Thanks **Automobile** ,2009 **2015 Passenger Car and 2014 Concept Car Yearbook** Automotive Engineering International,2014-11-21 Every year global automakers introduce new or significantly re engineered passenger vehicles with increasingly advanced technology intended to exceed consumer expectations and satisfy increasingly stringent government regulations Some of these technologies are firsts of their kind and start trends that other automakers soon follow with the innovations becoming adopted across the board The supply community is also increasingly playing a more significant role in helping the original equipment manufacturers research develop and introduce the latest engineering

innovations that help bring competitive advantage for their automaker partners Each year the editors of SAE's Automotive Engineering magazine publish many articles focused on the technology and engineering innovations of new passenger and concept vehicles and these articles have been collected into this volume This 2015 Passenger Car and 2014 Concept Car Yearbook is the fourth in an ongoing series of books that provide yearly snapshots of the latest and greatest technologies introduced by the automotive industry In this book we explore from an OEM and supplier perspective the newest and most technically interesting production vehicles released for the 2015 model year In addition we also have included a technology focused recap of the concept cars revealed during 2014 Readers will have in one publication a complete overview of the key advances that took place over the course of the year from around the world Each new model is profiled in its own chapter with one or more articles by the award winning editors and contributors of Automotive Engineering in this exclusive compilation of print and online content The novel engineering aspects of each new vehicle are explored with exclusive interviews of key engineers and product developers providing insights you can only get from you can only get from Automotive Engineering This book is published for the most technically minded enthusiasts who are interested in new car technologies as well as practicing automotive engineers who are interested in new engineering trends Engineering trends explored focus on what engineers are doing to meet the sometimes conflicting consumer and governmental demands for improved vehicle fuel efficiency performance safety and comfort In short this book Provides a single source for information on the key engineering trends of the year from both automaker and supplier perspectives Allows the reader to skip to chapters that cover specific car models that interest them or read about all models from beginning to end Makes for dynamic book reading with its large number of big full color images and easy reading magazine format
