Title: Subtitle

Research papers that use MLA format do not include a cover page unless requested by your instructor. Instead, start with the information shown at the top of this page. Do not bold the title or use all capital letters. Capitalize the first and last words of the title, and all principal words. If your paper includes a subtitle, separate it from the title by a colon and space, as shown. For more specific guidance on capitalization, see the *MLA Handbook for Writers of Research Papers, 7th Edition (MLA 7<sup>th</sup> Edition)*.

All text—including titles, quotations, notes, and list of works cited—uses double line spacing. Body text and note text use a half-inch first-line indent. The list of works cited uses a half-inch hanging indent. Table titles and source text use a quarter-inch indent. Access all of these text formats on the Home tab, in the Styles gallery.

MLA format discourages extensive use of content notes. But, when you need to add notes, you can use either endnotes or footnotes. *MLA 7th Edition* indicates that you should use a superscript, Arabic numeral at an appropriate place in the text for the note reference. To begin the note text, use the same numeral, not superscript, and followed by a period.

If you use endnotes, they should be on a separate page, at the end of your text and preceding the list of works cited. If you use footnotes, consult your professor for preferred format.
