Walker's Manual of Western Corporations & Securities, 1978 *Between Manuscript and Print* Sylvia Brockstieger, Paul Schweitzer-Martin, 2023-07-24 A cross cultural comparative view on the transition from a predominant culture of handwriting to a predominant culture of print in the late medieval and early modern periods is provided here combining research on Christian and Jewish European book culture with findings on East Asian manuscript and print culture This approach highlights interactions and interdependencies instead of retracing a linear process from the manuscript book to its printed successor While each chapter is written as a disciplinary study focused on one specific case from the respective field the volume as a whole allows for transcultural perspectives It thereby not only focusses on change but also on simultaneities of manuscript and printing practices as well as on shifts in the perception of media writing surfaces and materials Which values did writers printers and readers attribute to the handwritten and printed materials For which types of texts was handwriting preferred or perceived as suitable How and under which circumstances could handwritten and printed texts coexist even within the same document and which epistemic dynamics emerged from such textual assemblages
