Forklift Trucks

MC/FC

FD70N1 4F200-0001-0000

Keep this manual in your forklift truck as a ready reference.

version: 100-00

FOREWORD

The Occupational Safety and Health Administration (OSHA) prohibits employers under the age of 18 years old from operating trucks, and to have mandatory operator training for all truck operators.

SAFETY and EFFICIENT OPERATION of a truck depends to a great extent on the skill and actions of the operator. To develop the skill, the operator should read this manual to understand the following points:

- (1) Working capabilities and limitations of the truck.
- (2) Make-up of the truck.
- (3) Safe driving and load handling procedures.

It is the employer's responsibility to make sure the operator can see, hear and has the physical and mental ability to operate the truck safely.

It is also important that a qualified person experienced in truck operation should guide new operators through correct driving and load handling operations before they attempt to operate the truck on their own.

Notes:

- This manual contains information necessary for the operation and "Do-it-yourself" maintenance of standard trucks.
- Optional equipment is sometimes installed; it can change some operating characteristics described in this manual. Before operating such a truck, make sure the necessary instructions are available and understood.
- Truck operator training is provided through your authorized dealer. They will be glad to help you and answer any questions you may have about operating your new truck. Trucks are NOT intended for use on public roads.
- If you rent a truck, be sure to attach the original Operation & Maintenance Manual to the truck. In some countries, strict regulations do not allow imported trucks for rental. For rental information, contact your authorized dealer.
- If a truck is moved from another country, an Operation & Maintenance Manual attached to the truck may not meet your country's rules and regulations. For manual information, contact your authorized dealer.
- If your truck has an attachment, refer to the attachment supplier for the proper attachment operating instructions.
