productivity system like they did As practising managers stb Wetherill and Cattermole have used these techniques and procedures to deliver improvements in both in safety and productivity Helping their sites to become more economically viable evolving from problem sites with uncertain futures into vibrant sites that attract reinvestment and growth They become cleaner safer and better organised and therefore more attractive places to work in This book will help any company any site manager and any production director understand what is needed to set up a lasting productivity system not in theory but in practice and to deliver outstanding results
