Sigal,2013-05-13 Against all odds the International Campaign to Ban Landmines helped to enact a global treaty banning antipersonnel mines in 1997 For that achievement it was awarded the Nobel Peace Prize In this volume Leon Sigal shows how a handful of NGOs with almost no mass base got more than 100 countries to outlaw a weapon that their armies had long used It is a story of intrigue and misperception of clashing norms and interests of contentious bureaucratic and domestic politics It is also a story of effective leadership of sustained commitment to a cause of alliances between campaigners and government officials of a US senator who championed the ban and of the skilful use of the news media Despite this monumental effort the campaign failed to get the United States to sign the treaty Drawing on extensive internal documents and interviews with US officials and ban campaigners Sigal tells the story of the in fighting inside the Clinton administration in the Pentagon and within the ban campaign itself that led to this major setback for an otherwise unprecedented successful global effort Negotiating Minefields will be of interest to students and scholars of military and strategic studies and politics and international relations LIFE
