A Catalogue of Mein's Circulating Library John Mein, 1765      **A History of Fascism in France** Chris Millington, 2019-12-12 CHOICE Outstanding Academic Title 2021 A History of Fascism in France explores the origins development and action of fascism and extreme right and fascist organisations in France since the First World War Synthesizing decades of scholarship it is the first book in any language to trace the full story of French fascism from the First World War to the modern National Front via the interwar years the Vichy regime and the collapse of the French Empire Chris Millington unpicks why this extremist political phenomenon has at times found such fervent and widespread support among the French people The book chronologically surveys fascism in France whilst contextualizing this within the broader European and colonial frameworks that are so significant to the subject Concluding with a useful historiographical chapter that brings together all the previously explored aspects of fascism in France A History of Fascism in France is a crucial volume for all students of European fascism and France in the 20th century      **Boycott Theory and the Struggle for Palestine** Nick Riemer, 2022-12-13 The academic boycott of Israel a branch of the pro Palestinian Boycott Divestment and Sanctions BDS campaign is one of the richest and most divisive topics in the politics of knowledge today In Boycott Theory and the Struggle for Palestine Nick Riemer addresses the most fundamental questions raised by the call to sever ties with Israeli universities and offers fresh arguments for doing so More than a narrow study of the boycott campaign the book details how academic BDS relates to a range of live controversies in progressive politics on questions such as disruptive protest silencing and free speech the real world consequences of intellectual work the rise of the far right and the nature of grassroots campaigning Written for open minded readers the book presents the fullest justification for the academic boycott yet given considering BDS efforts on campuses around the world The opening chapters explore the fundamentals of the academic boycott campaign detailing the conditions on the ground in Palestinian and Israeli higher education and analyzing debates over the boycott and its adoption or resistance in the west The later chapters contextualize the boycott with respect to broader questions about the links between theory and practice in political change Directly rebutting the arguments of BDS s opponents Boycott Theory and the Struggle for Palestine demonstrates the political and intellectual soundness of a controversial and often misrepresented campaign In defending an original view of the differences between reflecting on politics and doing it in the specific context of the liberation of Palestine the book s arguments will have a resonance for many wider debates beyond the context of either universities or the Middle East      French Political Travel Writing in the Interwar Years Martyn Cornick, Martin Hurcombe, Angela Kershaw, 2017-02-10 This book studies travel writing produced by French authors between the two World Wars following visits to authoritarian regimes in Europe and the Union of Soviet Socialist Republics USSR It sheds new light on the phenomenon of French political travel in this period by considering the well documented appeal of Soviet communism for French intellectuals alongside their interest in other radical regimes which

have been much less studied fascist Italy the Iberian dictatorships and Nazi Germany Through analyses of the travel writing produced as a result of such visits the book gauges the appeal of these forms of authoritarianism for inter war French intellectuals from a broad political spectrum It examines not only those whose political sympathies with the extreme right or extreme left were already publicly known but also non aligned intellectuals who were interested in political models that offered an apparently radical alternative to the French Third Republic This study shows how travel writing provided a space for reflection on the lessons France might learn from the radical political experiments of the inter war years It argues that such writing can usefully be read as a form of utopian thinking distinguishing this from colloquial understandings of utopia as an ideal location Utopianism is understood neither as a fantasy ungrounded in the real nor as a dangerously totalitarian ideal but in line with Karl Mannheim Paul Ric ur and Ruth Levitas as a form of non congruence with the real that it seeks to transcend The utopianism of French political travel writing is seen to lie not in the attempt to portray the destination visited as utopia but rather in the pursuit of a dialogue with radical political alterity
