Davis,2021-04-06 After a cascade of failures left residents of Flint Michigan without a reliable and affordable supply of safe drinking water citizens spent years demanding action from their city and state officials Complaints from the city s predominantly African American residents were ignored until independent researchers confirmed dangerously elevated blood lead levels among Flint children and in the city s tap water Despite a 2017 federal court ruling in favor of Flint residents who had demanded mitigation those efforts have been incomplete at best Assessing the challenges that community groups faced in their attempts to advocate for improved living conditions *Tainted Tap* offers a rich analysis of conditions and constraints that created the Flint water crisis Katrinell Davis contextualizes the crisis in Flint s long and troubled history of delivering essential services the consequences of regional water management politics and other forms of systemic neglect that impacted the working class community s health and well being Using ethnographic and empirical evidence from a range of sources Davis also sheds light on the forms of community action that have brought needed changes to this underserved community Health Care for the Uninsured United States. Congress. Senate. Committee on Finance. Subcommittee on Health for Families and the Uninsured,1990 Active Citizenship and Disability Andrew Power,Janet Lord,Allison DeFranco,2013-01-14 This book provides an international comparative study of the implementation of disability rights law and policy focused on the emerging principles of self determination and personalisation It explores how these principles have been enshrined in the United Nations Convention on the Rights of Persons with Disabilities and how different jurisdictions have implemented them to enable meaningful engagement and participation by persons with disabilities in society The philosophy of active citizenship underpinning the Convention that all citizens should be able to actively participate in the community provides the core focal point of this book which grounds its analysis in exploring how this goal has been imagined and implemented across a range of countries The case studies examine how different jurisdictions have reformed disability law and policy and reconfigured how support is administered and funded to ensure maximum choice and independence is accorded to people with disabilities Medicare and Medicaid Guide ,1969 Catalogue of State Materials, June 1980 ,1980 Approximately 270 health program management manuals received by the Medicaid Medicare Management Institute since October 1979 Topical arrangement Each entry gives title contact person and telephone number and annotation No index **Child Health Supervision** George Washington University.
