Rolex became the official timekeeper of the Daytona International Speedway hence the start of the story of the legendary Cosmograph Daytona. The chronograph complication and the history of Rolex have always been inextricably linked. Rolex's first foray into measuring time began in the 1930s with the manufacture's very first Oyster chronograph model. In 1963, Rolex launched the Cosmograph Daytona, a sports chronograph that has never stopped evolving in respect to the spirit of the brand and which has always strived to improve existing technology by pushing the boundaries of what is technically possible. The history and diversity of this chronograph is such that two independent volumes have been devoted to it. This first volume is dedicated to hand-wound Daytonas manufactured between 1963 and 1988. It is a celebration of its illustrious history which has been forged by many people, but if we had to choose one person in particular, it would be Paul Newman.
