Handbook of Research on Advancements in the Processing, Characterization, and Application of Lightweight Materials

Kumar, Kaushik, Babu, B. Sridhar, Davim, J. Paulo, 2021-11-19 In the automotive industry the need to reduce vehicle weight has given rise to extensive research efforts to develop aluminum and magnesium alloys for structural car body parts In aerospace the move toward composite airframe structures urged an increased use of formable titanium alloys In steel research there are ongoing efforts to design novel damage controlled forming processes for a new generation of efficient and reliable lightweight steel components All these materials and more constitute today's research mission for lightweight structures They provide a fertile materials science research field aiming to achieve a better understanding of the interplay between industrial processing microstructure development and the resulting material properties The Handbook of Research on Advancements in the Processing Characterization and Application of Lightweight Materials provides the recent advancements in the lightweight materials processing manufacturing and characterization This book identifies the need for modern tools and techniques for designing lightweight materials and addresses multidisciplinary approaches for applying their use Covering topics such as numerical optimization fatigue characterization and process evaluation this text is an essential resource for materials engineers manufacturers practitioners engineers academicians chief research officers researchers students and vice presidents of research in government industry and academia

Regionalization of African Higher Education Jane Knight, Emnet Tadesse Woldegiorgis, 2017-04-17 Growth in the scope scale and importance of higher education regionalization should not be underestimated or ignored Africa like Asia Europe and Latin America is promoting deeper cooperation among higher education bodies and institutions across the continent and focusing more attention on Pan African and sub regional harmonization of policies and programmes This is the first book which brings together diverse scholars and policy experts to examine key aspects and challenges of African higher education regionalization Chapters examine the progress and prospects of core regionalization issues and strategies such as academic mobility quality assurance recognition of qualifications research centres and networks curriculum and competencies and regional academic programmes Other chapters discuss important themes such as the relationship between regionalization internationalization and Africanization historical antecedents and perspectives an analytical model to understand functional organizational and political approaches to Africa's higher education regionalization and the influence of the Bologna process on the African Union's Strategy for the Harmonization of Higher Education Programmes Together these chapters provide a comprehensive overview of efforts by the African Union sub regional higher education associations such as IUCEA SARUA and CAMES Pan African organizations and actors key research networks and centres of excellence and the involvement or dependence on external actors and funders especially from Europe Fundamentally the book asks the question whether higher education regionalization in Africa is more rhetoric than reality It discusses the progress to date on specific themes identifies historical

political sustainability and funding challenges and concludes that while the impacts of regionalization efforts have not been fully realized there is cautious optimism for the future

Discourses of Globalisation and Higher Education Reforms

Joseph Zajda, W. James Jacob, 2022-03-15 This book examines some of the major higher education reforms and policy shifts globally particularly in the light of recent shifts in quality and standards driven education and policy research It critiques the neo liberal ideological imperatives of current higher education and policy reforms and illustrates the way that changes in the relationship between the state and higher education policy affect current trends in higher education reforms Using diverse comparative education paradigms from critical theory to historical comparative research the chapters focus on globalisation ideology and higher education reforms and examine both the reasons and outcomes of higher education reforms and policy change The book analyses and evaluates the policy shifts in methodological approaches to globalisation and higher education reforms and their impact on education policy and pedagogy The book contributes in a very scholarly way to a more holistic understanding of the nexus between globalisation comparative education research and higher education reforms

Sustainable Production and Consumption Systems Charbel Jose Chiappetta Jabbour, Syed Abdul Rehman

Khan, 2021-09-26 This book opens up a critical dimension to the field of industrial ecology The book discusses the post COVID 19 trends in the field of industrial ecology and evolving practices adopted by firms for betterment of environment and society The authors identify valuable lessons to be learned and present conceptual frameworks to guide future industrial ecology applications Transforming industrial systems into closed loop industrial ecosystems dramatically reduces the negative impact of industrial activities on the environment Therefore this book is important not only for operation management scholars but also those who are interested in ensuring an environmentally sustainable future

Global report on the state of dietary

data Food and Agriculture Organization of the United Nations, Intake - Center for dietary assessment, 2022-03-09 Diet and nutrition are critical to health well being and longevity The economic and health burdens associated with poor quality diets are a worldwide concern but for low and middle income countries LMICs the long term impact of these burdens has the potential to be especially devastating Many of these LMICs are currently grappling with the deepening multiple burdens of malnutrition with undernutrition nutrient inadequacies and overweight and obesity often presenting simultaneously in communities households and even in single individuals Time relevant data is a necessary and critical component of any process or initiative that aims to ensure healthy diets Robust data on what people eat in a country enables an understanding of current food consumption practices and provides an evidence based foundation for the design and implementation of targeted and well informed actions policies and messaging to address the key issues related to healthy eating The purpose of this report is to take stock and celebrate the collection and use of dietary data in LMICs and generate further momentum for investment in government led dietary surveys in LMICs Section 1 provides a global overview of dietary surveys carried out in LMICs from 1980 through 2019 analysing key characteristics and trends over time Section 2 celebrates the increased

investment in dietary surveys in LMICs by highlighting country stories related to dietary survey initiation implementation and data use Section 3 is aimed at generating further momentum for investment in government led dietary surveys in LMICs by illustrating through data visualizations the type of information dietary data can provide for policy makers

Insects as food and feed: From production to consumption Arnold Van Huis, Jeffrey Tomberlin, 2017-09-15 Alternative protein sources are urgently required as the available land area is not sufficient to satisfy the growing demand for meat Insects have a high potential of becoming a new sector in the food and feed industry mainly because of the many environmental benefits when compared to meat production This will be outlined in the book as well as the whole process from rearing to marketing The rearing involves large scale and small scale production facility design the management of diseases and how to assure that the insects will be of high quality genetics The nutrient content of insects will be discussed and how this is influenced by life stage diet the environment and processing Technological processing requires decontamination preservation and ensuring microbial safety The prevention of health risks e g allergies will be discussed as well as labelling certification and legislative frameworks Additional issues are insect welfare the creation of an enabling environment how to deal with consumers gastronomy and marketing strategies Examples of production systems will be given both from the tropics palm weevils grasshoppers crickets and from temperate zones black soldier flies and house flies as feed and mealworms and crickets as food Detailed photographs are shown at the beginning of each section and chapter

Vitamins and Minerals Biofortification of Edible Plants Nouredine Benkeblia, 2020-03-23 A Detailed Reference on How Modern Biotechnology is using the Biofortification of Crops to Improve the Vitamin and Mineral Content of Edible Plants In this reference Vitamins and Minerals Bio Fortification of Edible Plants authors cover new territory on phytonutrients focusing on the enhancement and modification of edible crops This book presents techniques and research findings from modern biotechnology to educate readers on the newest tools and research in the field Readers will learn how groundbreaking scientific advances have contributed to the nutritional content of edible plants and crops for animals and humans Inside readers will find comprehensive information on new concepts of biofortification including but not limited to Modern biotechnology and its uses for improving the vitamin and mineral content of edible plants Potential minerals and vitamins that can be targeted and implemented in agriculture Ways of enhancing the nutritional contents of edible plants to address nutritional deficiencies and improve livestock Methods of identifying plants that can be used to heal or prevent disease and illness While many books cover the phytonutrients of crops this reference book reports on methodologies techniques and environmental changes used to enhance and improve agricultural products It is one of the first to provide information on using modern biotechnologies to modify crops with the goal of creating health benefits
