Teaching and Learning Victoria R. Fu, Andrew J. Stremmel, Lynn T. Hill, 2002 The Reggio Emilia approach is reintroduced in this book through rich stories and examples of children's projects that invite readers to examine their personal learning process. It offers innovative ways to meld theory with teaching and action research while considering the professional development of each reader: pre-service, in-service teacher, educator, teacher-researcher. By exploring the different perspectives, concepts, and practices adopted in early childhood settings in Denmark, Finland, Aotearoa New Zealand, and Sweden, *Empowering Early Childhood Educators* demonstrates the potential of participatory and democratic approaches in day-to-day practice. Illustrating how pedagogical approaches such as Te Whāriki, Reggio Emilia, and the Montessori method may be understood and interpreted to maximise children's engagement in their socio-cultural context, chapters empower educators to question their professional experience, knowledge, and initiative to find a balance between directives and ethical practice. A rich combination of case studies, commentaries, interviews, and conversations, the text offers critical insight into the daily practices and challenges of early years educators around the world and inspires critical reflection on practices which empower them. A powerful revaluation of the purposes and value of early childhood education, *Empowering Early Childhood Educators* will be of interest to early years practitioners, students, and researchers. **Resources in Education**, 2001-10
