MODEL 1540

Toolroom Production SURFACE GRINDER

6" x 18" Capacity

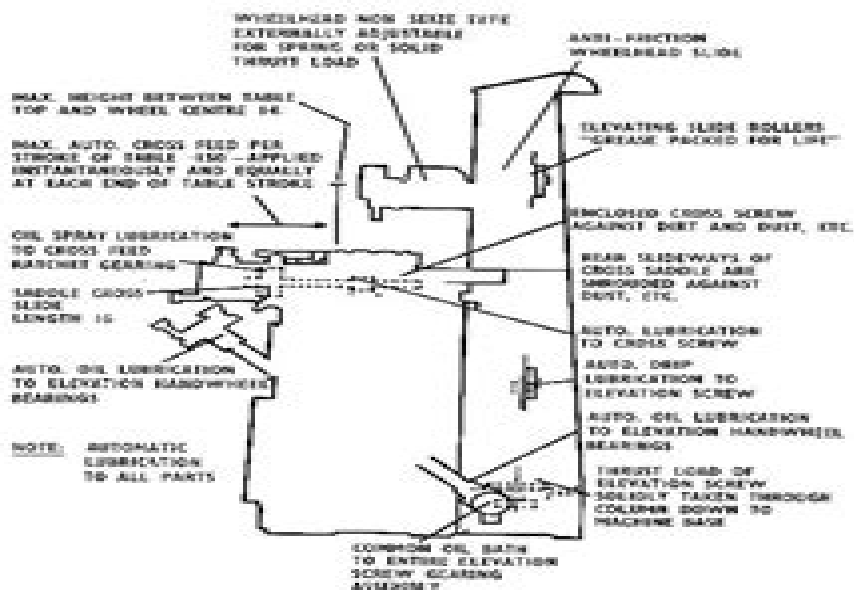

To-day the continual demand for increased productivity applies just as much in the Toolroom as the Machine shop. With this in mind the new Model 1540 has been specially designed for the customer who requires faster production.

Developed from the established Model 540 this machine has simplicity of design combined with characteristic accuracy and efficiency. Controls are simple and easy to operate, and many features which have made the Model 540 world famous are embodied.

New features have been designed and particular attention given to the stability and sensitivity of the machine to meet the exacting requirements of the toolroom. Power rise and fall to wheelhead with higher table speeds and visually indicated auto cross feed adjustment are definite aids to increased production. Automatic lubrication to all moving parts considerably reduces maintenance.
