my own material in preference to others if they find it good Should some of the opinions that have been expressed differ from those usually received and the practice based upon them seem unusual I must ask my readers to test them before they are condemned for they have only been introduced after serious consideration I have not consciously omitted any subject which comes under the notice of the general surgeon although the rightly recognized specialties of eye ear and dental surgery have been excluded To have given them in out line would have been to mislead and to have done more would necessarily have added much to the size of the volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
