Louisiana Place-names of Indian Origin William Alexander Read,1927      *Publications of the Louisiana Historical Society*  
Louisiana Historical Society,1912 Contains list of members      Publications of the Louisiana Historical Society, New Orleans,  
Louisiana Louisiana Historical Society,1902      **French and Spanish Records of Louisiana** Henry Putney  
Beers,2002-03-01 Representing years of extensive research this authoritative and comprehensive guide to the records  
generated in the Louisiana Territory during the French and Spanish colonial periods is a major reference work Henry Putney  
Beers has painstakingly traced all types of documents including land military and ecclesiastical records registers of births  
marriages and burials and private papers Far more than a mere bibliographical listing the book provides a complete history  
and description of these records and their past as well as current locations When microfilms or other copies of particular  
bodies of documents exist Beers describes the circumstances of reproduction and lists the locations of the copies In the first  
part of the book Beers presents a concise account of history and government in Louisiana concentrating on the formation of a  
record keeping bureaucracy His detailed discussion includes information on available archival reproductions documentary  
publications and the nature and size of holdings in pertinent manuscript collections Beers s examination of parish land and  
ecclesiastical records will serve as a vital resource In the remainder of the book he provides a similarly comprehensive  
treatment of the records of what are now Mississippi Alabama Missouri and Arkansas Beers traces repositories for these  
documents far beyond regional confines locating some in Europe Canada and Cuba For the early migrants to the region the  
Acadians for example he describes source materials at the migrants points of origin He also provides information on  
documents that have been lost or destroyed an important service that will save researchers much time French and Spanish  
Records of Louisiana will prove to be of enormous value to a wide range of people professional historians local history buffs  
genealogists lawyers archivists and librarians      University Bulletin Louisiana State University and Agricultural and  
Mechanical College,1927      *The Louisiana Historical Quarterly* John Wymond,Henry Plauché Dart,1926      The Big Muddy  
Christopher Morris,2012-07-24 In The Big Muddy the first long term environmental history of the Mississippi Christopher  
Morris offers a brilliant tour across five centuries as he illuminates the interaction between people and the landscape from  
early hunter gatherer bands to present day industrial and post industrial society Morris shows that when Hernando de Soto  
arrived at the lower Mississippi Valley he found an incredibly vast wetland forty thousand square miles of some of the richest  
wettest land in North America deposited there by the big muddy river that ran through it But since then much has changed  
for the river and for the surrounding valley Indeed by the 1890s the valley was rapidly drying Morris shows how centuries of  
increasingly intensified human meddling including deforestation swamp drainage and levee construction led to drought  
disease and severe flooding He outlines the damage done by the introduction of foreign species such as the Argentine nutria  
which escaped into the wild and are now busy eating up Louisiana s wetlands And he critiques the most monumental change

in the lower Mississippi Valley the reconstruction of the river itself largely under the direction of the Army Corps of Engineers Valley residents have been paying the price for these human interventions most visibly with the disaster that followed Hurricane Katrina Morris also describes how valley residents have been struggling to reinvigorate the valley environment in recent years such as with the burgeoning catfish and crawfish industries so that they may once again live off its natural abundance Morris concludes that the problem with Katrina is the problem with the Amazon Rainforest drought and famine in Africa and fires and mudslides in California it is the end result of the ill considered bending of natural environments to human purposes     *The Commerce of Louisiana During the French Régime, 1699-1763* Nancy Maria Miller Surrey,1916     Publications Louisiana Historical Society,1908 Includes resum s of minutes reports lists of members etc
