- **5. The outside phone cannot find the wireless network**
 - Check whether the network name is entered fully or not
 - Check the signal strength from the phone to the access point. If the wireless network will transmit data from the access point, the phone should find the network and the network should be present.
- **6. There is something wrong with the wireless network while using it**
 - Please try to re-connect with the outside phone after setting it up and connecting the network
 - Check the changing status of the network by pulling down the changing status bar for the wireless network. Then you may find out what the reason is to re-connect with the network.

- The wireless network always disconnects a mobile device when connected to the mobile device.
- The wireless network must remain in the plane of the page.
- There is an interaction between the mobile device and the wireless network, as the wireless network is a shared system.
- Please do not use the wireless network with any device in order to improve the wireless quality of the system, please do it keep the wireless network and the mobile device in the same direction.
