The Teacher Educational Leadership language English abstract This work attempts to prove that the Strategic Intervention  
Material SIM can significantly address the least mastered skills and learning competencies from the K 12 curriculum guide  
Different and multiple activities were created in order to improve and help the pupil understand difficult concepts about the  
subject Assessments were made and subjected to parallel testing The activities were finalized and administered in an  
Elementary School with 23 Grade IV pupils as respondents The mean mastery and performance level on the actual lesson and  
the utilization of SIM were computed Moreover results were compared The mastery and performance level before and after  
the use of the Strategic Intervention Material were interpreted It showed that there was a significant difference on the  
mastery and performance levels of pupils This suggests that the utilization of SIM helps the pupils to master the difficult and  
least mastered competencies     *Private Schools of San Francisco and Marin Counties (K-8)* Susan Vogel,2000-10
