Complete the following template, including all parts. Fill out all cells using complete sentences.

<i>Identify and describe something within your topic that stayed the same over the selected time period, using specific historical evidence. (5-6 sentences)</i>	One thing that stayed the same over my time period is the train. Steam locomotives were first created well before 1877, but have fundamentally stayed the same over hundreds of years. The way the steam engine works is that it uses some form of combustible material, usually coal to create steam which powers the engines and turns the wheels. Trains in America were used to transport materials, mail, and people all across the country. They played a vital role that kept
