List Journals Impact Factor 2013

Thomas Griffiths

List Journals Impact Factor 2013:

Chemical Information for Chemists Judith N Currano, Dana Roth, 2014-03-17 While it is not difficult to find data in many cases what advice can you get on the quality of the data retrieved Chemical Information for Chemists could help with this problem and more This book is a chemical information book aimed specifically at practicing chemists Written and edited by experts in the field it is ideal for chemists who lack a chemical information professional able to teach basic and intermediate techniques in retrieving and evaluating information using the unique entry points of the chemical literature including structure formula substructure and sequence Aimed at students on undergraduate and graduate courses it could also be a useful guide to new information specialists who are facing the challenging diversity of chemical literature

Springer Handbook of Science and Technology Indicators Wolfgang Glänzel, Henk F. Moed, Ulrich Schmoch, Mike Thelwall, 2019-10-30 This handbook presents the state of the art of quantitative methods and models to understand and assess the science and technology system Focusing on various aspects of the development and application of indicators derived from data on scholarly publications patents and electronic communications the individual chapters written by leading experts discuss theoretical and methodological issues illustrate applications highlight their policy context and relevance and point to future research directions A substantial portion of the book is dedicated to detailed descriptions and analyses of data sources presenting both traditional and advanced approaches It addresses the main bibliographic metrics and indexes such as the journal impact factor and the h index as well as altmetric and webometric indicators and science mapping techniques on different levels of aggregation and in the context of their value for the assessment of research performance as well as their impact on research policy and society It also presents and critically discusses various national research evaluation systems Complementing the sections reflecting on the science system the technology section includes multiple chapters that explain different aspects of patent statistics patent classification and database search methods to retrieve patent related information In addition it examines the relevance of trademarks and standards as additional technological indicators The Springer Handbook of Science and Technology Indicators is an invaluable resource for practitioners scientists and policy makers wanting a systematic and thorough analysis of the potential and limitations of the various approaches to assess research and research performance

Unconventional Methodology in Organization and Management Research Alan Bryman, David A. Buchanan, 2018-03-21 Most researchers in organization and management studies stick to two or three traditional research methods like surveys and interviews Sticking with the familiar is seen as a safe bet and innovation is discouraged by academic incentives and rewards But research participants are now suffering from survey fatigue and using the same old methods runs the risk of generating the same old findings This book describes twelve unconventional methodologies in organization and management research These include unconventional research settings and data sources unconventional research designs and data collection methods unconventional analytic approaches and designs and methods

that exploit new technology developments The aim is to encourage dialogue and experimentation with regard to the development of innovative unconventional approaches to organization and management research Several commentators have criticized the way in which research methods have become more formulaic and have argued for greater diversity in research approaches The methodological perspective that the we adopt shapes our interpretation of the information that we gather Different methods generate different kinds of information leading to different ways of understanding the phenomena that we are investigating Our methods influence our styles of theorizing ways of thinking and reasoning and forms of writing and reporting research This book will be of value to academic researchers in organization and management studies Doctoral candidates and Masters students on MBA and similar programmes

Book Power in Communication, Sociology and Technology Tereza Khecyoyan,Manolis Koukourakis,Angela Repanovici,2018-12-31 In 2012 The Library of Congress Washington D C U S A had the initiative of organizing an annual meeting which would disseminate the vision of library leaders on the importance of the book The meeting would gather all the categories involved in the book industry writers publishers editors professors librarians The goal was to create a platform for discussions on how to promote the book as a crucial element for culture and education enhancement The power of information and its dissemination was discussed within the first edition while keeping the book as a central element in all debates After this first edition the Summit of the book was organized yearly in different locations throughout the world Singapore 2013 France 2014 Egypt 2015 and Ireland 2016 The event had a powerful international impact and in 2017 the 6th summit was hosted in Brasov Romania at the Transilvania University This volume is the collection of the most valuable contributions to the 6th Summit of the Book where experts presented their best practices and expertise in the history and technology of the book knowledge support and book dissemination

Intelligent Decision Support Systems Salvatore Greco,Vincent Mousseau,Jerzy Stefanowski,Constantin Zopounidis,2022-05-31 This book presents a collection of essays written by leading researchers to honor Roman S owi ski s major scholarly interests and contributions He is well known for conducting extensive research on methodologies and techniques for intelligent decision support where he combines operational research and artificial intelligence The book reconstructs his main contributions presents cutting edge research and provides an outlook on the most promising and advanced domains of computer science and multiple criteria decision aiding The respective chapters cover a wide range of related research areas including decision sciences ordinal data mining preference learning and multiple criteria decision aiding modeling of uncertainty and imprecision in decision problems rough set theory fuzzy set theory multi objective optimization project scheduling and decision support applications As such the book will appeal to researchers and scholars in related fields
