Literary Theory Johannes Willem Bertens, 2006 **Theory of Literature** René Wellek, Austin Warren, 1956

Crystallizes a movement to focus literary criticism and literary study in general on literature itself rather than on the historical backgrounds *Literary Theory: A Complete Introduction* Sara Upstone, 2017-05-04

Literary theory has now become integral to how we produce literary criticism. When critics write about a text they no longer think just about the biographical or historical contexts of the work but also about the different approaches that literary theory offers. By making use of these they create new interpretations of the text that would not otherwise be possible. In your own reading and writing literary theory fosters new avenues into the text. It allows you to make informed comments about the language and form of literature but also about the core themes/concepts such as gender, sexuality, the self, race and class which a text might explore. Literary theory gives you an almost limitless number of texts to work into your own response ensuring that your interpretation is truly original. This is why although literary theory can initially appear alienating and difficult it is something to get really excited about. Imagine you are standing in the centre of a circular room with a whole set of doors laid out around you. Each doorway opens on to a new and illuminating field of knowledge that can change how you think about what you have read perhaps in just a small way but also perhaps dramatically and irrevocably. You can open one door or many of them. The choice is yours. Put the knowledge you gain together with your own interpretation however and you have a unique and potentially fascinating response.

Each chapter in *Literary Theory: A Complete Introduction* covers a key school of thought progressing to a point at which you will have a full understanding of the range of responses and approaches available for textual interpretation. As well as focusing on such core areas as Marxism, Modernism, Postmodernism, Structuralism and Poststructuralism this introduction brings in recent developments such as Eco and Ethical Criticism and Humanisms.

Literary Theory Jonathan Culler, Jonathan D. Culler, Professor of English Jonathan Culler, 1997 What is Literary Theory Is there a relationship between literature and culture In fact what is Literature and does it matter These are the sorts of questions addressed by Jonathan Culler in a book which steers a clear path through a subject often perceived to be complex and impenetrable It offers discerning insights into theories about the nature of language and meaning whether literature is a form of self expression or a method of appeal to an audience and outlines the ideas behind a number of different schools deconstruction semiotics postcolonial theory and structuralism amongst them

Theory of Literature Ren Wellek, 2017-08-07 The naming of this book has been more than ordinarily difficult Even a proper short title Theory of Literature and Methodology of Literary Study would be too cumbersome Before the nineteenth century one might have managed for then a full analytic title could have covered the title page while the spine bore the inscription Literature We have written a book which so far as we know lacks any close parallel It is not a textbook introducing the young to the elements of literary appreciation nor like Morize's Aims and Methods a survey of the techniques employed in scholarly research Some continuity it may claim with Poetics and Rhetoric from Aristotle down through Blair Campbell and Karnes systematic treatments of the genres of belles lettres and stylistics or with books called Principles of Literary Criticism But we have sought to unite poetics or literary theory and criticism evaluation of literature with scholarship research and literary history the dynamics of literature in contrast to the statics of theory and criticism It comes nearer to certain German and Russian works Walzel's Gehalt und Gestalt or Julius Petersen's Die Wissenschaft von der Dichtung or Tomashevsky's Literary Theory In contrast to the Germans however we have avoided mere reproductions of the views of others and though we take into account other perspectives and methods have written from a consistent point of view in contrast to Tomashevsky we do not undertake to give elementary instruction on such topics as prosody We are not eclectic like the Germans or doctrinaire like the Russian
