degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective  
writers One of the puzzles which they encounter at the college and university after reporting for studies is the course  
assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers In  
most colleges and universities lecturers provide to students broad questions to answer in the form of essays either in group  
or individual assignments How should they turn the broad assignment questions provided to them by their lecturers into  
specific researchable topics for essays How should they handle literature in order to obtain valuable information to answer  
the provided question How should they construct an informed and convincing argument using the collected information as  
evidence This book concerns these and other related questions With its clear illustrations the book is designed to be a self
