*Water, Rhetoric, and Social Justice* Theresa R. Castor, Casey R. Schmitt, Christopher S. Thomas, 2020-01-20 *Water Rhetoric and Social Justice A Critical Confluence* examines how individuals and communities have responded on a global scale to present day water crises as matters of social justice through oratory mass demonstration deliberation testimony and other rhetorical appeals This book applies critical communication methods and perspectives to interrogate the pressing yet mind boggling dilemma currently faced in environmental studies and policy that clean water the very stuff of life which flows freely from the tap in affluent areas is also denied to huge populations materially and fluidly exemplifying the currents of justice liberty and equity Contributors highlight discourse and water justice movements in nonofficial spheres from activists artists and the grassroots In extending the technical economic moral and political conversations on water justice this collection applies special focus on the novel rhetorical concepts and responses not necessarily unique to but especially enacted in water justice situations Scholars of rhetoric sociology activism communication and environmental studies will find this book particularly useful

**Draining New Orleans** Richard Campanella, 2023-05-03 In *Draining New Orleans* the first full length book devoted to the world's toughest drainage problem renowned geographer Richard Campanella recounts the epic challenges and ingenious efforts to dewater the Crescent City With forays into geography public health engineering architecture politics sociology race relations and disaster response he chronicles the herculean attempts to reclaim the city's swamps and marshes and install subsurface drainage for massive urban expansion The study begins with a vivid description of a festive event on Mardi Gras weekend 1915 which attracted an entourage of elite New Orleanians to the edge of Bayou Barataria to witness the christening of giant water pumps President Woodrow Wilson connected via phonline from the White House planned to activate the station with the push of a button effectively draining the West Bank of New Orleans What transpired in the years and decades that followed can only be understood by examining the large swath of history dating back two centuries earlier to the geological formation and indigenous occupation of this delta and extending through the colonial antebellum postbellum and Progressive eras to modern times The consequences of dewatering New Orleans proved both triumphant and tragic The city's engineering prowess transformed it into a world leader in drainage technology yet the municipality also fell victim to its own success Rather than a story about mud and machinery this is a history of people power and the making of place Campanella emphasizes the role of determined and sometimes unsavory individuals who spearheaded projects to separate water from dirt creating lucrative opportunities in the process not only for the community but also for themselves

**Doing Environmental Ethics** Robert Traer, 2019-08-28 *Doing Environmental Ethics* explains how we may transform our fossil fuel burning economy which continues to intensify our ecological crisis into a circular and ecological economy The text resists political corruption and personal greed by gleaning ethical insights from our philosophical and religious cultures and by embracing the scientific Gaia hypothesis for the Earth Its reasoning ascribes

intrinsic worth to uplifting duties and rights as well as inspiring virtues and relationships and tests applying these values by predicting the likely consequences of acting on them It affirms all life has value for itself and that human life also values reasoning and feelings and being ethical The third edition examines US and international environmental policies through 2018 It analyzes the Trump administration s repudiation of the environmental policies of the Obama administration and its new rules slashing the social costs of climate change The text reviews a draft UN treaty that would impose human rights and environmental constraints on transnational corporations but it also highlights outstanding examples of corporate upcycling and low carbon innovation Finally the third edition explains why food security requires protecting the food sovereignty of farming communities and cooperatives as well as public policies ensuring fair profits for farmers practicing agro ecology
