

The independent Classik lights up life with Linn sound. The new alternative to the sound and looks of mass market compact systems. Designed to be useful throughout a home - in a kitchen, bedroom, living or student room - with Linn Classik sound quality, it can even switch lighting on and off!

The Linn Classik is simple, stylish, fulfilling and fun to use. Connected to a pair of loudspeakers, the Classik forms an independent and versatile Linn complete entertainment system with all the advanced features needed to satisfy the most demanding hi-fi enthusiast or discriminating music lover.

Packed full of features and providing superb sound quality and remarkable value for money the Linn Classik combines high quality CD and radio sources, a most extensive flexible control system and very powerful stereo amplification in a single, discrete and compact package.

The Classik CD source uses Linn's high-accuracy pickup and decoding technology to deliver consistent audio performance and robust tracking ability. The tuner, with 80 station presets, accesses the AM and FM frequencies used throughout the world, and has an adjustable threshold control for the most refined performance on both strong and weak signals. The preamplifier section has two external line level audio inputs to connect additional audio sources, a tape monitoring facility and recording output and an external preamplifier output for additional power amplification when bi-amping. The high density stereo power amplifier in the Classik delivers 150 Watts into 4 Ohms, and has twin loudspeaker terminals to drive two pairs of loudspeakers simultaneously or to bi-wire a single pair. The Classik is simple to operate via the front control and display panel and from its remote handset.

User configurable functions in the Classik help to make it most easy and enjoyable to use. CLOCK, ALARM and TIMER features can pre-set the time of day or night when the unit can be programmed to switch on and shut-down automatically, and it can also operate external lighting, additional entertainment components or appliances for your convenience or security, via a 2-amp switched socket. Other user function options cover tuner, amplifier and CD operation and the DISPLAY Mode.
