Repère, 2007 [Talking to Babies](#) Myriam Szejer, 2005-08-15 Myriam Szejer talks to newborns For over a decade she has worked in the maternity ward of a hospital outside Paris Called in by hospital staff when a baby or its parents are suffering Szejer uses the psychoanalytic techniques of careful listening and talking to reach failure to thrive and other suffering newborns and reverse their conditions Talking to Babies is the story of her important work Having psychologists or psychiatrists available to new mothers on maternity wards is not unusual But having a psychoanalyst available who also talks to newborns is completely revolutionary Szejer has pioneered her unique approach to treating struggling infants through years of study and apprenticeship And in Talking to Babies she describes in thoughtful and convincing detail the theory of her practice and how her interventions work illustrating with the moving stories of the numerous infants she has helped In the very first days of a baby s life the newborn still struggling between birth and its entry into our world already needs words

By needing words Szejer means that infants need to be talked to about the specific situations into which they are born They need to hear about their mothers fathers siblings and caretakers but they also need to hear about problematic aspects of their histories such as the death of a twin sibling or the death of a baby before them These words must be spoken to the baby in the presence of his or her mother and father if at all possible Such speech helps everyone newborn and parents to find their places in the altered world created by the birth When such words are not present physical symptoms and illness may emerge Talking to Babies is the first book to show how the talking cure can help infants and their parents Post partum depression in mothers failure to thrive in babies these problems might be approached quite differently if maternity wards incorporated some of Szejer s practices High tech interventions are all too common in American maternity wards Talking to Babies offers a more humane route for restoring health Preface Sometimes as I am leaving the hospital late at night I stop to look in on a patient who has recently given birth And often as I open the door I catch a special moment the new mother leaning over the crib or more often face to face with the newborn on her lap looking intently at him and murmuring motherly words In a maternity ward however everything is not always so rosy Birth is sometimes accompanied by suffering a suffering too rarely perceived in our Western societies When I met Myriam Szejer an unknown field opened to me the reality of the newborn s preverbal behavior Szejer dares psychoanalyze newborns dares talk to them dares intervene before the symptom has taken root particularly in dangerous situations Her approach ought to become known to all who make perinatal medicine their career Her approach is innovative What woman has not been shaken to her very being by becoming a mother what man has not trembled at becoming a father Babies feel that profound apprehensiveness They need to be listened to which is a form of respect from the Preface by Ren Frydman M D **Faites comme si je n'avais rien dit** Pierre Boncenne,2003 Recueils d interviews d auteurs prestigieux publi es dans Lire Barthes Baudrillard Bonnefoy Butor Garcia Marquez Ionesco Levy Strauss Leys Sarraute Semprun Sollers Vargas Llosa Zinoviev L ensemble propose une r flexion sur le travail d critique la cr ation et la formation d une pens e **Hier juifs "progressistes," aujourd'hui juifs-- ?** Amis de la Commission centrale de l'enfance,1996 Médecine et Santé de l'Adolescent Priscille Gerardin,Bernard Boudailliez,Philippe Duverger,2019-09-03 M decine et Sant de l Adolescent est un ouvrage de r f rence qui aborde les probl matiques m dicales somatiques psychologiques et psychiatriques sociales et culturelles de l adolescent Il s adresse tous les professionnels des quipes m dicales et soignantes mais aussi ceux accompagnant les adolescents dans diff rents contextes Aide Sociale l Enfance Protection Judiciaire de la Jeunesse milieux sociaux et m dico sociaux ducation nationale Justice associations Il leur fournit des rep res en vue de construire une culture commune et promou voir un accompagnement interdisciplinaire Il dresse un panorama complet de la m decine et sant de l adolescent Apr s avoir pos le contexte sp cifique de l adolescence il traite des troubles psychologiques et psychiatriques des maladies chroniques de la prise en charge de pathologies mergentes telles les d pendants aux crans et aux r seaux sociaux de l ducation th rapeutique de la p riode de transition vers l ge adulte de l
