Getting into Nursing Karen Elcock, 2015-05-15 This book helps potential nursing students succeed in getting into nursing. It gives practical help on the application process, filling out application forms, passing numeracy and literacy tests, and succeeding at interviews. It also explains what nurses do, what personal qualities are needed, and what is involved in nursing training, so applicants can decide whether nursing is really for them. This book has been carefully shaped to answer all of the common questions applicants are likely to have, along with many they will not yet have thought of. It has been updated in light of the recommendations in the Francis Report and covers values-based recruitment, the importance of compassion in practice, and considers the needs of non-traditional applicants and mature students. Features of the book include practice numeracy and literacy tests to help students face their interview day with confidence, all the information students need given in one place, with no need to trawl through countless websites looking for answers, helpful advice on choosing the right course, and succeeding in the application, top tips, and stories from real nurses, students, patients, and lecturers that explore from the inside what nursing is like, example interviews to help students prepare for the big day. *Get into UK Nursing School For Dummies* Andrew Evered, 2013-04-10 The need for nurses is always great, but so is the competition to secure a place in a pre-registration programme at university. The best performing organisations welcome complaints as a way of engaging consumers. A failure to recognise the importance of complaints leads to insufficient redress for the individual, limits the impact that complaints have in improving services, and alienates the public. In some parts of public services, there are encouraging signs of increased attention to good complaints handling. However, Government as a whole cannot be said to be complying with best practice in complaints handling or adapting to the needs and expectations of today's citizen. Success depends on the right leadership. The Committee

recommend that there should be a minister for government policy on complaints handling the primary objective of the Cabinet Office review of complaints handling in Government should be to change attitudes and behaviour in public administration at all levels in respect of complaints handling in respect of complaints from MPs handled by ministers replies must be accurate clear and helpful and with no sharing of confidential information or delegation of responsibility for responding the Government should create a single point of contact for citizens to make complaints about government departments and agencies and the Government should provide leadership to those responsible for various parts of administrative justice to ensure that there is a clear and consistent approach to sharing learning and best practice
