Lost Causes Narrative Etiology And Queer Theory:

Lost Causes Valerie Rohy, 2015 *Lost Causes* stages a polemical intervention in the discourse that grounds queer civil rights in etiology that is in the cause of homosexuality whether choice recruitment or biology

Lost Causes Valerie Rohy, 2014 *Lost Causes* stages a polemical intervention in the discourse that grounds queer civil rights in etiology that is in the cause of homosexuality whether choice recruitment or biology Reading etiology as a narrative form political strategy and hermeneutic method in American and British literature and popular culture it argues that today's gay arguments for biological determinism accept their opponents paranoia about what Rohy calls homosexual reproduction that is nonsexual forms of queer increase preventing more complex ways of considering sexuality and causality This study combines literary texts and psychoanalytic theory two salient sources of etiological narratives in themselves to reconsider phobic tropes of homosexual reproduction contagion in *Borrowed Time* bad influence in *The Picture of Dorian Gray* trauma in *The Night Watch* choice of identity in James Weldon Johnson's *Autobiography of an Ex Colored Man* and dangerous knowledge in *The Well of Loneliness* These readings draw on Lacan's notion of retroactive causality to convert the question of what causes homosexuality into a question of what homosexuality causes as the constitutive outside of a heteronormative symbolic order Ultimately this study shows queer communities and queer theory must embrace formerly shaming terms why should the increase of homosexuality be unthinkable while retaining the critical sense of queerness as a non identity a permanent negativity

Chances Are Valerie Rohy, 2019-10-11 This innovative work makes use of psychoanalytic queer and narrative theories to read nineteenth and twentieth century American literature and demonstrate how the concept of contingency whether chance accident luck or mutation enriches our understanding of how queer sexualities are articulated Perhaps love always carries an element of contingency our attraction to a particular person can be arbitrary and inexplicable and a sense of necessity we find that we cannot imagine life without them But contingency and chance mean something different for queer subjects In a heteronormative culture heterosexuality claims to be necessary

it must be whereas homosexuality not only could be otherwise but perhaps it should be otherwise and probably it should not be at all This book outlines why and how issues of chance and contingency should matter to queer theory and queer literary studies Combining psychoanalytic queer and narrative theories Chances Are considers nineteenth and twentieth century American literary texts that formally or thematically involve contingencies of their own including narrative coincidences and accidents the role of luck in notions of race and class and efforts to imagine queer hermeneutic methods that make space for contingency Literary texts include Edgar Allan Poe's *The Mystery of Marie Rogé* 1842 Horatio Alger's *Ragged Dick* novels 1868-69 Frank Norris's *The Pit* 1903 and Edith Wharton's *The House of Mirth* 1905 Frances E W Harper's *Iola Leroy* 1892 and Nella Larsen's *Passing* 1929 H D's *Tribute to Freud* 1956 and Alison Bechdel's *Are You My Mother* 2012 This dynamic and original text would be suitable for students and researchers in literary studies critical theory and women's and gender studies

McCallum, 2019-01-10 *After Queer Studies* maps the literary influences that facilitated queer theory's academic emergence and charts the trajectories that continue to shape its continued evolution as a critical practice It explores the interdisciplinary origins of queer studies and argues for the prominent role that literary studies has played in establishing the concepts methods and questions of contemporary queer theory It shows how queer studies has had an impact on many trending concerns in literary studies such as the affective turn the question of the subject and the significance of social categories like race class and sexual differences Bridging between queer studies legacies and its horizons this collection initiates new discussion on the irreducible changes that queer studies has introduced in the concepts methods and modes of literary interpretation and cultural practices

Inceptions Kevin Ohi, 2021-04-06 The beginning is both internal and external to the text it initiates and that noncoincidence points to the text's vexed relation with its outside Hence the nontrivial self-reflexivity of any textual beginning which must bear witness to the self-grounding quality of the literary work its inability either to comprise its inception or to externalize it in an authorizing exteriority In a different but related way the fact that they must begin renders our lives and our desires opaque to us what Freud called latency marks not only sexuality but human thought with a self-division shaped by asynchronicity From Henry James's *New York Edition* prefaces to George Eliot's epigraphs from Ovid's play with meter to Charles Dickens's thematizing of the ex nihilo emergence of character from Wallace Stevens's abstract

consideration of poetic origins to James Baldwin's Carson McCullers's and Eudora Welty's descriptions of queer childhood writers repeatedly confront the problem of inception Inception introduces a fundamental contingency into texts and psyches alike in the beginning all could have been otherwise For Kevin Ohi the act of inception and the potential it embodies enables us to see making and unmaking coincide within the mechanism of creation In this sense Inceptions traces an ethics of reading the possibility of perceiving in the ostensibly finished forms of lives and texts the potentiality inherent in their having started forth

Homo Psyche Gila Ashtor, 2021-06-01 Winner Alan Bray Memorial Book Award 2022 Lammy Finalist LGBTQ Studies Can queer theory be erotophobic This book proceeds from the perplexing observation that for all of its political agita rhetorical virtuosity and intellectual restlessness queer theory conforms to a model of erotic life that is psychologically conservative and narrow Even after several decades of

combative dazzling irreverent queer critical thought the field remains far from grasping that sexuality's radical potential lies in its being understood as exogenous intersubjective and intrusive Laplanche In particular and despite the pervasiveness and popularity of recent calls to deconstruct the ideological foundations of contemporary queer thought no study has as yet considered or in any way investigated the singular role of psychology in shaping the field's conceptual impasses and politico ethical limitations Through close readings of key thinkers in queer theoretical thought Eve Kosofsky Sedgwick Leo Bersani Lee Edelman Judith Butler Lauren Berlant and Jane Gallop *Homo Psyche* introduces metapsychology as a new dimension of analysis vis vis the theories of French psychoanalyst Jean Laplanche who insisted on new foundations for psychoanalysis that radically departed from existing Freudian and Lacanian models of the mind Staging this intervention Ashtor deepens current debates about the future of queer studies by demonstrating how the field's systematic neglect of metapsychology as a necessary and independent realm of ideology ultimately enforces the complicity of queer studies with psychological conventions that are fundamentally erotophobic and therefore inimical to queer theory's radical and ethical project

[Queer and Feminist Theories of Narrative](#) Tory Young, 2021-05-13

This book argues for the importance of narrative theories which consider gender and sexuality through the analysis of a diverse range of texts and media Classical Narratology an allegedly neutral descriptive system for features of narrative has been replaced by a diverse set of theories which are attentive to the contexts in which narratives are composed and received Issues of gender and sexuality have nevertheless been sidelined by new strands which consider for example cognitive transmedial national or historical inflections instead Through consideration of texts including the MTV series *Faking It* and the papers of a nineteenth century activist *Queer and Feminist Theories of Narrative* heeds the original call of feminist

narratologists for the consideration of a broader and larger corpus of material Through analysis of issues including the popular representation of lesbian desire the queer narrative voice invisibility and power in the digital age embodiment and cognitive narratology reading and racial codes this book argues that a named strand of narrative theory which employs feminist and queer theories as intersectional vectors is contemporary and urgent The chapters in this book were originally published as a special issue of the journal Textual Practice

AIDS

Literature and Gay Identity Monica B. Pearl, 2013 This book discusses the significance of late twentieth century and early twenty first century American fiction written in response to the AIDS crisis and interrogates how sexual identity is depicted and constructed textually Pearl develops Freudian psychoanalytic theory in a complex account of the ways in which grief is expressed and worked out in literature showing how key texts from the AIDS crisis by authors such as Edmund White Michael Cunningham Eve Sedgwick and also later the archives of The ACT UP Oral History Project lie both within the tradition of gay writing and a postmodernist poetics The book demonstrates how literary texts both expose and construct personal identity how they expose and produce sexual identities and how gay and queer identities were written onto the page but also constructed and consolidated by these very texts Pearl argues that the division between realist and postmodern and gay and queer respectively is determined by whether the experience expressed and accounted is mediated through the psychoanalytic categories of mourning or melancholia and is marked by a kind of coherence or chaos in the texts themselves This study presents an important development in scholarly work in gay literary studies queer theory and AIDS representation
