anthropologist Sharon Derrick discovered a box of remains marked 1973 Murders in the Harris County Medical Examiner's office she recalled the horrifying crime from her own childhood and knew she had to act. It would take prison interviews with Correll's accomplices, advanced scientific techniques and years of tireless effort to identify these young men. Investigative journalist Lise Olsen brings to life the teens who were hunted by a killer hiding in plain sight and the extraordinary woman who would finally give his unknown victims back their names and their dignity. **Labor and Global Justice** Mary C. Rawlinson, Wim Vandekerckhove, Ronald M. S. Commers, Tim R. Johnston, 2014-10-30 *Labor and Global Justice: Essays on the Ethics of Labor Practices under Globalization* combines conceptual and theoretical perspectives across a multiplicity of relevant differences, both geographical and disciplinary, to develop a transnational perspective on labor and justice. Through its multidisciplinary transnational approach and its engagement with public policy, the contributors advance urgent contemporary debates around work and clearly demonstrate the necessity of articulating the rights of labor to any global ethics or to any concept of global justice. Together, the chapters make evident why justice requires both theoretically and practically a rethinking and rearticulation of the relation between labor and capital. Framing the theoretical and practical question of justice in a new way, the editors have gathered addresses scholars across multiple disciplines including philosophy, international relations and the social sciences. As the volume emphasizes the connection between the concept of justice and real public policy, it also appeals to human rights workers and labor organizers as well as those who make the public policies that establish the relation between labor and capital, just or unjust, and that determine the well-being of workers for good or ill.

**Lost Girls** Marlin Camack, 2021-06 Four shocking tales of young lives cut brutally short that will make you want to hug your daughter and never let her go. An 11-year-old girl never makes it home from a Halloween party. When the people of the tight-knit Oil City discover what was done to her, they cancel Halloween until the real monsters who roam their streets can be caught. A 14-year-old girl is excited to attend her first evening party with local teens. What happens there is every parent's nightmare, but it is made infinitely worse when the residents of the town close ranks around the perpetrators. A schoolgirl comes to the aid of a middle-aged woman who has lost her puppy and becomes the victim of the most hated couple in Australian history. Police tell gang members a 16-year-old girl has agreed to testify against them with predictable results. When they make an arrest for her murder, a Hollywood sitcom plays a surprising role in the outcome. This is a difficult book to read due to the subject matter; it's most definitely not for the faint of heart. Despite it being a dark read, it is an important read as there is so much information that is presented and that we can learn from to better help prevent such things from happening again.
