*Econometrics, Statistics, and Computational Approaches in Food and Health Sciences* Alok Bhargava, 2006 This book is a compendium of Alok Bhargava's most important contributions in longitudinal econometric methods and its application to problems of food nutrition and health. It demonstrates the usefulness of rigorous econometric and statistical methods in addressing issues of under nutrition and poor child health in developing countries as well as obesity in developed countries. The close connection between the issues and themes analyzed in disciplines such as economics, nutrition, psychology, demography, epidemiology, and public health provides a sound basis for the formulation of public policies.
